

2001 CENSUS DATA INCOME

The source for the following data is the Community Data Network, Custom Tabulation, Statistics Canada, Census of Population - 2001.

The following data is based on the non-institutional population, which excludes people living in hospitals, nursing homes, prisons, etc. A 20% sample was used to compile statistics. One in five households were surveyed and the results were then multiplied to obtain representative data for the whole community.
