

LIVING PRAIRIE MUSEUM

Winter Programs

On-Site Programs at 2795 Ness Ave.

Available for ages 5 to adult, all on-site group programs are 1.5 hours long. Programs include both indoor and outdoor activities with age-appropriate materials.

Snowshoe Excursion - ages 5 to adult
Learn how to snowshoe on the prairie!

Tracks and Bannock - ages 5 to adult
Look for real animal tracks then cook your own bannock over a warm fire!

Animals in Winter - ages 5-7
Brrr! How do living things survive the prairie winter? Learn about hibernation, migration and adaptation, and go for a prairie scavenger hunt!

Scoop on Poop - ages 5-7
Come learn what poop can tell us and keep your group giggling along the way!

Power of the Prairie - ages 7-10
Learn all about this special habitat, and how living things interact!

Owl Prowl - ages 7-10
Investigate Manitoba's different owl species, and take a prowling in their habitat.

Eager Beavers - ages 7-10
Learn how beavers shape their whole habitat and build your own beaver dam!

Prairie Relationships - ages 11-13
Through fun activities, explore how everything is connected on the prairie, even you!

Tall Grass Prairie Intro - ages 14 to adult
Get up close and personal with this endangered ecosystem by exploring its history and conservation.

Nature Comes to You

We bring the prairie to you with a 1-hour interactive presentation! Available November to April at your school, centre, or workplace. *Not seeing what you want? Contact us for other outreach opportunities.*
