Implementation of Audit Recommendations Report- 2023 Quarter 1- Summary

Audit Recommendations

Once an Audit is complete, the next step is implementation of the recommendations. The Audit Department provides a list of the audit recommendations to the Public Service Director of the department that was audited. The Public Service prepares an action plan and target for completion date. The implementation of the audit recommendations is the responsibility of the Public Service.

The Public Service provides status updates quarterly for all recommendations. For recommendations in progress this includes a target completion date. Documentation supporting implementation and progress is reviewed by the Audit Department for confirmation. If the Public Service indicates that a recommendation will not be implemented, residual risk is identified and discussed with the Department and reported to Audit Committee.

After presentation to the Audit Committee these reports are posted at: [Implementation of Audit Recommendations Reports](#)
