Note:					
Permits for new single-family and two-family dwellings, detached secondary suites and additions, the number of inspections included in a project would be 7 (3 for building, 2 for plumbing, and 2 for electrical if applicable to the construction project). Since most of the required inspection points can be combined to include more than one permit, the inspections can be 'transferred' between permits on these projects.					
However, for many interior renovation projects or accessory structure (external to the house) projects which might include more than one permit (e.g. a garage with a building and electrical permit), the inspections would not be transferable because each electrical or plumbing contractor will typically call for inspections independently.					
There are two inspections in total per flood proofing permit package.

Note:

1. Fees and Charges

Fees and Charges within the City of Winnipeg are governed by the *Fees & Charges By-law, 196/2008*.
Under s.3 of the By-law, the Chief Financial Officer (CFO) has the authority to increase fees "by an amount equal to or less than the rate of inflation".

Authority to Charge

In this schedule, 'Authority to Charge Fee' indicates one of the following:

- The By-law establishing the fee;
- The Position to which authority over the fee has been delegated by Council;
- A specific Council motion establishing the fee or approving a departmental policy regarding fees & charges.

Where no specific policy or delegated authority has been indicated, changes to fees above the rate of inflation remain subject to the approval of Council.
