**THIS ADDENDUM SHALL BE INCORPORATED
INTO THE REQUEST FOR INFORMATION**

Template Version: Ar20150806

Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Request for Information, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 4 of Form A may render your Submission non-responsive.

PART B – REQUEST FOR INFORMATION

Revise: B2.1 to read: According to the Manitoba Water Protection Act, the City of Winnipeg wastewater biosolids must be beneficially re-used and nutrients must be recovered and recycled to the maximum extent possible. The City of Winnipeg (City) submitted a Biosolids Master Plan in 2014 to Manitoba Conservation and Water Stewardship to maximize the beneficial reuse of biosolids. **The Biosolids Master Plan is posted on the Manitoba Conservation and Water Stewardship website: <http://www.gov.mb.ca/conservation/eal/registries/963.2/index.html>.** It outlines a 30 year plan for biosolids management, with multiple beneficial re-use strategies for maximum flexibility and robustness. The Biosolids Master Plan recommended application of biosolids to agricultural land as one of the beneficial re-use strategies. This RFI is specific to biosolids land application.
