# NEWPCC Plant Tour Layout: Listing of Various Processes Identified during the Tour

## Plant Process Areas:

1. Hauled Liquid Waste Facility
2. Administration Building
3. Main Building: Surge Well, Discharge Chamber, and Raw Sewage Pumps
4. Preliminary Treatment
5. Power Supply
6. Junction Chamber
7. Primary Treatment
8. HPO Reactors
9. Secondary Clarifiers
10. Maintenance Building
11. Cryogenic Plant
12. Centrate Treatment Facility
13. Anaerobic Digestion Facility
14. Boiler Room
15. Sludge Dewatering Facility
16. Chemical Phosphorus Removal Facility (Dewatering Lab)
17. Ultraviolet Disinfection Facility
18. The Outfall
