Failure to acknowledge receipt of this Addendum in Paragraph 4 of Form A: RFI Submission may render your Submission non-responsive.

QUESTIONS AND ANSWERS

- Q1 Is custom application development a possibility, or are the solutions limited to only providers of existing off-the-shelf software or SASS (Software-as-a-Service) solutions?
- A1 The solution can be either existing off-the-shelf software or a custom application development. SaaS and other cloud offerings are acceptable, as are on-premise deployments.
- Q2 If a decision were to be made to create an RFP, is there an estimate for when a potential rollout of a solution would be needed?
- A2 We are looking to move as quickly as possible to roll out the solution, potentially within 2018.
- Q3 How long will you be providing this service to Winnipeg citizens? E.g. several years, month-to-month as needed, a trial run, etc.
- A3 This will be a trial run, and if successful, will become a permanent service for Winnipeg citizens.
