PART E – SPECIFICATIONS

- Revise: E7.2.2 (a) to read: Scrapers may be used for hauling purposes, provided that the Contractor understands that use of scrapers through the haul route may be difficult due to the width of the machines. The Contractor may need to make provisions to make hauling with scrapers feasible.
- Add: E7.2.3 (b) All damage to existing infrastructure along the haul route (road, manholes, boulevards, etc.) shall be repaired and paid for in Items E.6, E.7 and F.23 of the Form B: Prices. The extent of the repair will be determined by the Contract Administrator through means of an inspection once hauling is finished.
