ISSUED: August 21, 2023  
BY: Ryan Demianiw  
TELEPHONE NO. 204 986-7037

**THIS ADDENDUM SHALL BE INCORPORATED INTO THE BID/PROPOSAL AND SHALL FORM A PART OF THE CONTRACT DOCUMENTS**

Template Version: Add 2021-03-05

**Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Bid/Proposal, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 10 of Form A: Bid/Proposal may render your Bid/Proposal non-responsive.**

### IMPORTANT NOTICE TO BIDDERS

Revise: Notice #4 to read:

The City of Winnipeg Snow Clearing Best Practices Guidelines is an online orientation that has the objective to educate and increase operator knowledge on how to best perform street snow clearing work on City right-of-way. The online orientation is a joint venture between the City of Winnipeg Streets Maintenance Division and the Heavy Equipment & Aggregate Trucker Association (HEAT).

All operators of truck plows, graders, loaders and sidewalk clearing equipment are required to complete the City of Winnipeg Snow Clearing Best Practices Online Orientation and have a certificate of completion in possession when reporting to work for the City. Operators MUST have completed the course prior to working their first shift and are expected to be able to produce a paper or digital copy of the certificate to the City of Winnipeg Foreman who they report to.

Access to the online orientation can be found at [www.heatlearningportal.ca](http://www.heatlearningportal.ca). This website replaces the former learning platform at [www.citysnowremoval.ca](http://www.citysnowremoval.ca). All usernames, passwords and certificates from the old website have been transferred over to the new website and both individuals and companies can access their profiles in a similar format.

Cost is \$40.00 plus GST per course and certificates are valid for **one (1) year**. HEAT Members receive a discounted price of \$25.00 per course. Each user must have their own email address. Please contact [memberservices@heatmb.ca](mailto:memberservices@heatmb.ca) for all questions regarding member pricing or to be assigned your discount. For any assistance with the website, technical difficulties or accessing your certificate please email [admin@heatlearningportal.ca](mailto:admin@heatlearningportal.ca) or call 204- 809-0142. Companies who are new users should consider setting up their profile prior to the first snowfall of the season to allow time to assign courses and familiarize themselves with the website.

**Changes to the online orientation have been made for the 2023-2024 snow season. Because of the changes all new and existing holders of certificate of completion must take the oriental prior to reporting for work starting October 15, 2023.**

### PART E – SPECIFICATIONS

- Revise: E11.2(c) to read:
