PART E – SPECIFICATIONS

Revise E2.4 to read: Further to E2.1 and E2.2, for non-technical requirements, the Bidder should explain their ability to comply and provide examples. For clauses where the Bidder is not required to document a compliance score, the bidder is still required to respond by way of narrative explanation. A number of requirements ask for supporting information, schematics, or explanation.

Revise E22.17 to read: The elements collected for the WRHA and Manitoba Health should be taken from data entered in the standard user interface and not a separate screen for the data required by the WRHA and Manitoba Health. Refer to Document N for an explanation of Manitoba Health's data requirements.
