

**Part 1            General**

**1.1                Section Includes**

- .1      Assignment of separate Elevator tender
- .2      Preparatory work for and support work for the elevator installer
- .3      Coordination of the work of the elevator trade

**1.2                Related Sections**

- .1      Section 01450 - Quality Control
- .2      Section 01780 - Closeout Submittals
- .3      Section 04220 – Concrete Masonry Units
- .4      Section 09110 – Steel Studs
- .5      Section 09250 – Gypsum Board
- .6      Section 09650 – Resilient Flooring
- .7      Section 15400 – Plumbing
- .8      Division 16 - Electrical

**1.3                References**

- .1      Canadian Construction Documents Committee (CCDC)
  - .1      CCDC 2-94, Stipulated Price Contract.

**1.4                Administrative**

- .1      The contractor will assume control of and responsibility for administration and coordination of the elevator trade, separately tendered and awarded by the Owner. The value of this trade work will be defined by that separate tender and included in the general contract by means of a change order to the 'Elevator Supply & Install Cash Allowance'
- .2      The contractor will undertake all related work and coordination necessary to ensure a complete elevator installation as discussed in **1.1 & 1.2**

**END OF SECTION**
