Dear Mr. Amy:

Re: Proposed Replacement of City of Winnipeg's Access Bridge over Bunn's Creek to 330/334 Bonner Avenue

This is in response to your correspondence, dated August 17, 2007, concerning the above referenced project.

We have reviewed the information on the project and have determined that an Environment Act Licence will not be required. The decision to not require licensing is based on the minimal impact associated with the single span replacement, completion of the project during the winter and the erosion control and general mitigation measures prescribed in your correspondence.

Thank you for providing information on the project to us for review.

Yours truly,

Bryan Blunt
Environment Officer
Environmental Assessment
And Licensing Branch
