PART E - SPECIFICATIONS

GENERAL

E1. APPLICABLE SPECIFICATIONS AND DRAWINGS

- E1.1 These Specifications shall apply to the Work.
- E1.2 Bidders are reminded that requests for approval of substitutes as an approved equal or an approved alternative shall be made in accordance with B5.

E2. CONTRACT QUANTITIES

- E2.1 The contract quantities for these Works during any monthly period will consist of the total number of units serviced in each category identified for collection and disposal in Form B: Prices. The total inventory as of May 5, 2010 is as listed in E21; and for each time period in question, it will be the adjusted category totals as formally modified in writing from time to time by the Contract Administrator.
- E2.2 Collection and disposal service shall extend to all new or additional apartments, small commercial establishments or City operated facilities immediately when directed in writing by the Contract Administrator. The Contractor shall provide this extension of service for the same unit price specified in Form B: Prices.
- E2.3 The amount payable in this Contract will be reduced when any apartment, small commercial establishment or City operated facility is no longer generating solid waste. All such changes will be carried out for month-end payment purposes.
- E2.4 The Contractor shall note that customers have the right to use or reject solid waste collection service arranged through the City, and therefore the City cannot guarantee the actual number of establishments under this Contract. Also, the Contract Administrator may designate the type of container to be used, which may cause an increase or a reduction in the number of establishments served.
- E2.5 The Contract Administrator will provide the Contractor notice in writing of any changes, either additions or deletions, or change in frequency of collection of apartments, small commercial establishments, or City operated facilities serviced under this Contract.
- E2.6 Notwithstanding E2.5 above, the Contractor shall be responsible to notify the Contract Administrator if there is any change in collection from an apartment, small commercial establishment or City operated facility that would result in a change in the service to that location. Examples would include, but are not limited to, business ceases to exist, garbage container removed by a third party, increase or decrease of garbage container size or quantity, apartment building no longer occupied because of building damage, etc.
- E2.7 The following table is the 2009 monthly tonnage for the Contract Area:

Month	Tonnage	Month	Tonnage
January	996.83	July	1430.4
February	1019.1	August	1422.5
March	1118.2	September	1383.1
April	1263.3	October	1374.1
May	1353.6	November	1238.6
June	1467.9	December	1212.7

E3. SCHEDULE OF COLLECTION ROUTES AND DAYS OF COLLECTION

E3.1 Collection Schedule:

- (a) The Contractor shall file with the Contract Administrator a detailed schedule of collection routes and days of collection for each route at least sixty (60) calendar days prior to the commencement of the Work of this Contract. Should the Contractor wish to change the specified schedule of collection prior to the start of the Contract, the Contractor shall be responsible for the duplication and delivery to each affected premises of a suitable notice of the change, prepared and authorized by the Contract Administrator, from relevant information supplied by the Contractor.
- (b) This schedule is subject to the approval of the Contract Administrator. Pick-up locations shall be scheduled on a, bi-weekly, once-a-week or twice-a-week basis as indicated in E21 and designated by the Contract Administrator.
- (c) The Contractor shall keep the collection schedule and collection route list up to date and shall provide the Contract Administrator with a copy of the above records not less than thirty (30) calendar days prior to the commencement of the Work of this Contract.

E3.2 Hours of Operation

- (a) The hours of operation shall be between 7:00 a.m. and 5:00 p.m. except in the case of unusual delay, emergency or equipment breakdown. The Contractor may extend the hours of operation provided that the Contractor reports the deviation from the schedule prior to it occurring. In any event, however, the Contractor may not start earlier than 7:00 a.m. or carry out collections past 10:00.p.m.

E3.3 Holidays

- (a) The Contractor shall maintain the specified collection schedule at all times, notwithstanding that periodically, a scheduled collection day will fall upon a statutory holiday, with the exception of Remembrance Day, Christmas Day, and New Year's Day. On those occasions, the Contract Administrator may permit specific variation (on an occurrence-by-occurrence basis) where advance notice is provided to, and approved by, the Contract Administrator at least fourteen (14) calendar days prior to the statutory holiday.
- (b) Where the disposal facility is not scheduled to be open as defined in E18 herein, the Contractor may request to have the City provide limited disposal services at a charge of \$150.00 per hour.

E3.4 Service Change

- (a) Should the Contractor wish to change the specified schedule of collection during the course of the Contract, the Contract Administrator shall be notified in writing at least six (6) calendar weeks prior to the proposed date of change. Any change shall be subject to the approval of the Contract Administrator. The Contractor shall be responsible for the duplication and delivery to each affected premises of a suitable notice of the change, prepared and authorized by the Contract Administrator, from relevant information supplied by the Contractor.
- (b) The current collection schedule is based on services being provided Monday, Tuesday, Wednesday, Thursday, Friday, and Saturday.

E3.5 Other Wastes

- (a) Wastes from any establishment other than those serviced under this Contract will not be allowed to be collected along with the wastes generated from this Contract. In the event that the Contractor does collect other non-contract wastes, the applicable tipping fee will be charged for all wastes delivered to the disposal facility by that particular truck on that day; and as well, a \$1000 surcharge will be assessed to the Contractor.

E3.6 Peak Periods

- (a) There is considerable variation in the amount of solid waste to be picked up in a given area periodically, particularly in the spring, fall and Christmas seasons. The Contractor shall

meet this variation in demand by using extra equipment, manpower or overtime, if required, in order to ensure that the solid waste is collected as per the schedule.

E4. EQUIPMENT

- E4.1 The Contractor shall provide the Contract Administrator with a specific list of all equipment, including identification numbers, to be used in the execution of this Contract, such list to be provided at least thirty (30) calendar days prior to starting the Contract.
- (a) Whenever an addition or deletion is proposed, the Contractor shall notify the Contract Administrator, in writing, at least two (2) calendar weeks prior to this change actually taking place.
 - (b) Under emergency conditions caused by equipment breakdown, snowstorms, or similar conditions, same day notice will be considered adequate.
- E4.2 To ensure equipment suitability for effective contract performance throughout the duration of the Work, vehicles used in the performance of these works shall be no older than model year 2009, without the expressed written permission to the Contract Administrator.
- E4.3 The Contractor shall have access to spare collection vehicles, should circumstances such as equipment breakdown prevent the Contractor from maintaining the collection schedule.
- E4.4 Prior to the start of this Contract, GPS monitoring equipment will be installed on the vehicles used for this Work. The monitoring of vehicles will be to ensure the Contractor is providing collection services in a timely and effective manner. The equipment will be installed at the expense of the City of Winnipeg. At the end of the Contract, this equipment will be removed and returned to the City of Winnipeg. This will also be done at the expense of the City.
- E4.5 The Contractor will have access to the GPS monitoring system. Training on the use of this system will be provided.
- E4.6 In addition to the equipment safety requirements required by legislation, all collection vehicles operating in the landfill site shall be equipped with the following safety equipment:
- (a) Back-up alarms;
 - (b) Transmission safety switches (kill switches);
 - (c) Power take-off (P.T.O.) indicator lights;
 - (d) "Maxi" brakes;
 - (e) Operation lights.
- E4.7 The Contractor's name and unit number shall adequately identify the Contractor's equipment so that Landfill staff and collection customers can readily identify a unit from a distance of five (5) metres from both the side of the vehicle as well as the rear of the vehicle.

E5. INSPECTION

- E5.1 Periodic inspections of the Contract area, including inspection of staff and vehicles, and contents therein contained, may be made by the Contract Administrator to verify that the service supplied by the Contractor is adequate in all respects. If any deviations from the requirements of the Contract exist, they will be noted, and the Contractor or representative will be notified, either orally or in writing, of the corrective measures to be taken. Such periodic inspections do not relieve the Contractor in any way from making independent inspections to ensure that the Work is being performed satisfactorily.

E6. COMMUNICATIONS

- E6.1 The Contractor shall maintain an office, equipped with a phone, facsimile machine, and email access staffed by a competent person, open from 8:00 a.m. to 4:30 p.m., not including Saturdays, Sundays or statutory holidays (when not carrying out Works under E3.4(b) herein).
- E6.2 The Contractor shall have a qualified field Supervisor on duty throughout all hours of the performance of these Works, who must be equipped with a cellular telephone in order to ensure a constant ability to be contacted by the City and to enable a courteous, speedy, and efficient response to all service deficiencies.
- E6.3 The Contractor shall submit to the Contract Administrator a prioritized listing of the Contractor's staff who can be contacted after the office hours noted above if required. The Contractor shall ensure that this listing is current by providing the Contract Administrator with an updated listing whenever changes in staff contacts occur.
- E6.4 Should the City be unable to contact the Contractor to respond to service deficiency concerns, the City will immediately address the deficiency in service, and the associated costs shall be charged to the Contractor as liquidated damages.

E7. SERVICE STANDARDS

- E7.1 One of the goals of the Solid Waste Services Division is to provide excellent service to its customers.
- E7.2 In order to determine the level of service being provided, the City operates a Call Centre and tracks calls from its customers. Each call to the Call Centre will generate a service request. Also, service requests can be generated by City employees.
- E7.3 Based on current information, calls to the Call Centre will be categorized into service request categories, of which three (3) will be applicable to this Contract. The three applicable service request categories for this Contract are:
- (a) Missed Collection
 - (b) Request for Service
 - (c) Damage or Theft by Collection Crews
- The description title of these categories may change prior to the start of this Contract; however, their substance will not change.
- E7.4 Missed collection:
- (a) A notification from a customer regarding missed collection that is received before 4:30 p.m. on the same day as the scheduled collection is not a service deficiency.
- E7.5 Damage or Theft by collection Crews are typically, but not limited to, instances of:
- (a) Damaged collection container;
 - (b) Damage to public or private property;
 - (c) Misplaced collection container;
 - (d) Spillage;
 - (e) Profanity;
 - (f) Excessive Noise.
- E7.6 The Contract Administrator shall provide to the Contractor a copy of every service request indicated above. The City will supply and install a computer terminal and associated software in the Contractor's office to directly receive service requests electronically. The Contractor will be required to respond to the work order and complete the service request electronically. The City will provide software application training during this process. Installation and monthly connection

fees for this equipment will be paid by the City. The Contractor will be responsible to supply both paper and printer toner for this equipment at their cost.

- E7.7 If the service request is missed collection or damage or theft by collection crews, the Contractor shall remedy the service request within 24 hours of receipt, and report back to the City within 48 hours of receipt, the time and date when the remedy occurred. Failure to do so will result in liquidated damages of \$50.00 for each Calendar Day where the service request is not responded to. The sum, as defined above as liquidated damages, will be deducted from the Contractor's payment as liquidated damages. These considerations are not intended to be applied to major service delays occasioned by conditions described in E9.1 except where the Contractor does not advise, nor offer, the Contract Administrator a satisfactory plan of action to correct the referenced service deficiency.
- E7.8 If there are more than two (2) missed collection and damage or theft by collection crews on any scheduled collection day, liquidated damages of \$50.00 per service request in excess of two (2) will be assessed.
- E7.9 If there are zero (0) missed collection or damage or theft by collection crews on any scheduled collection day, an incentive bonus in the amount of \$50.00 per day will be paid.
- E7.10 In order to allow for the Contractor to become familiar with the work, E7.8 and E7.9 will not apply for the first month.
- E7.11 Any and all claims for damage assigned to the Contractor by the City will be classified as property damage, and must be handled within the same timeframe as in E7.6. If, after one collection cycle, the property damage is still unresolved, the City will settle the claim and deduct any material and liquidated damages from the monthly progress estimate.

E8. DISMISSAL OF EMPLOYEES

- E8.1 In addition to C5.6 of the General Conditions, the Contract Administrator may request the suspension, discharge, or other disciplinary action of any employee directly involved in the collection process for one or more of the following offences during working hours, and the Contractor shall comply with such request as promptly as possible:
- (a) Found in possession of or under the influence of alcohol and/or mind-altering drugs;
 - (b) The use of foul, profane, vulgar or obscene language;
 - (c) Solicitation of gratuities or tips from the public for services performed under this Contract;
 - (d) The refusal to collect and/or handle solid waste placed out for pick-up in accordance with this Contract;
 - (e) The wanton or malicious damage or destruction of containers or private property;
 - (f) The wanton or malicious scattering or spilling of solid wastes or;
 - (g) The provision of collection services by staff who are clothed in a manner that is clearly of unacceptable public standard.

E9. WORK PERFORMANCE AND EQUIPMENT BREAKDOWN

- E9.1 If, in the opinion of the Contract Administrator, the Contractor is not performing the Work reasonably in accordance with the approved schedule, the Contract Administrator may demand, in writing, more collection vehicles and/or staff to be provided by the Contractor immediately, and upon the Contractor's failure to provide them, the City may arrange to hire additional trucks and staff and charge the cost of such hire to the Contractor, in addition to any applicable liquidated damages.
- E9.2 The Contractor shall immediately notify the Contract Administrator or designate whenever peak period excesses or equipment breakdowns occur that are likely to generate delays in the regularly provided collection service. The Contract Administrator shall be advised as to the Contractor's plans to correct this deficiency in service.

E9.3 The Contractor shall maintain the specified collection schedules for all establishments at all times, including locations experiencing a labour dispute. Certain properties included in these Works, such as nursing homes for example, may be subject to picketing or other obstruction to container access; and the Contractor shall employ legal techniques such as using non-unionized operators or supervisors to take collection equipment across picket lines, or using early/late schedule variations to avoid same, to ensure adherence to required schedule frequency.

E10. IMPASSABLE BACK-LANES AND/OR STREETS

E10.1 The solid waste shall be removed under all weather conditions, with the exception of impassable back-lanes and/or streets due to an act of God (such as a flood or an exceptionally heavy snowfall), which temporarily prevents the performance of the Works of the Contract. However, even in such cases, areas or parts or areas which are able to be collected, shall be serviced. Service may be temporarily postponed only with the permission of the Contract Administrator. Should a temporary postponement of service be allowed, service must be resumed at the earliest possible time following the postponement, or as stipulated by the Contract Administrator.

E10.2 Should weather conditions exist such that the Contract Administrator deems it necessary to omit certain pick-ups altogether, no payments will be made; and the additional garbage generated shall be picked up on subsequent collections. Payments for partial monthly pick-ups shall be pro-rated.

E10.3 The Contractor shall notify the Contract Administrator of any back-lane or street that the Contractor considers impassable due to mud or construction. In the event that the back-lane or street is declared by the Contract Administrator to be impassable, the Contractor and Contract Administrator shall mutually agree to a method of removing the solid waste, and the Contractor shall remove the solid waste within the next two working days. Payment for the additional work involved in the pick-up of the solid waste removed in this manner will be made as extra work under this Contract. The extra work entitlement shall be only that Work which is required by the Contractor to remove the solid waste from the impassable street or lane to a point where it can be picked up by the Contractor at the nearest passable street or back-lane.

E10.4 No extra work shall be carried out until the Contractor and the Contract Administrator decide upon the extra work price, in writing, in accordance with C7.4 and C7.8 of the General Conditions.

E11. DEALING WITH IMPROPERLY STORED/PLACED SOLID WASTE CONTAINERS

E11.1 Should the Contractor find that the solid waste is not placed in accordance with the Solid Waste By-law 1340/76 and its applicable amendments, the Contractor shall attempt to pick up the solid waste and then notify the Contract Administrator accordingly, within twenty-four (24) hours, of the By-law infraction. Alternatively, if the infraction is such as to make the pick-up unreasonable, the Contractor may leave the pick-up and notify the Contract Administrator as soon as possible within that working day or commencement of the subsequent working day. The Contract Administrator may request the Contractor or supervisor to meet, at a time stipulated by the Contract Administrator, at the location of the pick-up where the By-law infraction exists to explain the alleged infraction. If there is an infraction of the By-law, then the Contract Administrator will take immediate steps to have the By-law provisions enforced, and will subsequently notify the Contractor to resume garbage collection. Where a bona fide By-law violation was confirmed as sufficient to render the collection unreasonable, the missed pick-up provisions of E7.3 will not be applied. The determination of the Contract Administrator in this regard will be final and binding. Other examples of infractions include automobiles parked near the bin(s) so as to prevent safe access, construction activities in the immediate area of the bin(s), etc.

E11.2 Where excess material, ozone depleting substances (fridges, freezer, etc.) or bulky wastes are placed outside of the container so as to render dumping impractical or dangerous, the

Contractor can defer such collection until the Contract Administrator can enforce the Solid Waste By-law and have the property owner correct the placement deficiencies, provided however, that the Contract Administrator is immediately notified of such collection deferral decision by the Contractor. Failure to notify may result in the deferral being judged as a missed collection under E7.

E11.3 Where excess material is piled outside of the containers so as to render container dumping difficult during the immediate post-Christmas collection only, the Contractor shall not leave the container uncollected but shall carry out whatever supplementary measures are necessary for collection (including hand removal of interfering disposal material). The Contract Administrator shall be the sole authority over the degree of reasonableness applicable to each potential missed collection determination under E7.

E12. DAMAGE OR MISUSE OF SOLID WASTE CONTAINERS

E12.1 The Contractor shall employ reasonable care so as not to damage or misuse any solid waste containers, and the Contractor shall replace emptied bins in the same location as prior to pick-up. Failure to respond promptly to violations of this Clause may result in correction by the City with costs recoverable as liquidated damages. Should container or property damage result from unreasonable use of any container, as determined at the sole discretion of the Contract Administrator, the alleged damage claim will be forwarded to the Contractor for resolution. Should a successful claim subsequently be adjudicated and paid due to failure by the Contractor to reasonably respond to a claimant, the costs of the claim will be deducted from the Contractor's payments as a performance deficiency.

E13. GARBAGE SPILLAGE

E13.1 The Contractor shall be responsible for satisfactorily cleaning up any spillage resulting from the unreasonable use of any garbage container, as determined at the sole discretion of the Contract Administrator.

E13.2 The Contractor shall be responsible for any spillage resulting from leakage of any fluids that may be discharged from the Contractor's equipment during and after collection at any site. Examples include hydraulic fluid and 'garbage juice'.

E13.3 The Contractor shall clean up solid spillage promptly and completely. Where spillage includes waste oils, paints and other liquids, the Contractor shall use appropriate measures, as approved by the Contract Administrator, to remove all traces of the liquid as practicable.

E13.4 In the case of a fire occurring in a loaded garbage packer and the load being dumped at the location where the fire occurred, the Contractor shall be responsible to clean up the spillage as soon as the fire is brought under control, and to complete it on the same day.

E13.5 The clean up of any spillage will be considered incidental to the Contract, and no additional payments will be made for any such Work.

E13.6 Failure to satisfactorily clean up spillage according to the above may result in the City undertaking or authorizing the clean-up, and all costs incurred will be charged to the Contractor as liquidated damages.

E14. DEAD ANIMALS

E14.1 The Contractor shall not be required to pick up dead animals.

E15. BULKY WASTES

E15.1 The Contractor will not be required to carry out special collections for bulky waste items in these Works. However, there is no requirement herein that bulky waste materials contained within any

container be removed prior to collection, unless they present an unsafe or unreasonable impediment to collection.

- E15.2 The provisions of E11 regarding the improper placement of solid wastes shall apply to bulky wastes that impede a safe and reasonable collection of any container.

E16. SOLID WASTE BY-LAW – TERM INTERPRETATIONS

- E16.1 The Solid Waste By-law 1340/76, as periodically amended by City Council is, for purposes of ready reference, a part of these specifications; and the latest amended version is available at <http://www.winnipeg.ca/waterandwaste/dept/default.stm#by-laws> . All terms and requirements used in and under this Contract shall be in accordance with the Solid Waste By-law, except for the interpretation of the By-law outlined below:

- (a) That Section 7(a) of By-law 1340/76 which reads “covered metal containers as approved by the Designated Officer, of a size and type suitable for mechanically dumping into collection vehicles. Such containers shall be used in all locations where the quantity of solid waste equals or exceeds 1.5 cubic metres per week and where suitable conditions exist for mechanical collection,” shall be interpreted to mean containers designed for mechanical overhead dumping into collection vehicles, as well as “roll-off” type containers designed for garbage collection and for transport by dedicated roll-off collection equipment.
- (b) “Apartments” means apartments as defined in By-law 1340/76 and amendments thereto except that, for the purposes of this Contract, collections are to be made only from apartment blocks where there are “roll-off” containers, compactor containers, and containers designed for mechanical overhead dumping, contingent upon the containers and their placements receiving approval of the Contract Administrator as conforming to the Solid Waste By-law.

E17. DISCRETIONARY AUTHORITY UNDER THE SOLID WASTE BY-LAW

- E17.1 Wherever the Solid Waste By-law (By-law 1340/76) and amendments thereto, provides for discretionary authority by the Commissioner or designate, or where this discretionary authority is implied in the By-law, this discretionary authority, as it pertains to matters under this Contract, shall lie with the Contract Administrator.

E18. SOLID WASTE DISPOSAL SITE

- E18.1 The designated solid waste disposal site for this Contract shall be the City's Brady Road Landfill facility, which is located approximately two kilometres south of the south Perimeter Highway (PTH #101) west of Pembina Highway (PTH #75) on Brady Road.

- E18.2 No solid waste collected under this Contract shall be deposited in any place inside or outside the City other than E18.1.

- E18.3 The hours of operation of the Brady Road Landfill are currently as follows:

Summer:

- | | |
