#### **PART E – SPECIFICATIONS**

Revise: E3.4 to read:

E3.4 The Contractor shall be required to:

- (a) Chip wood and sell to the City on a cost recovery basis;
  - (i) Wood chips to be a minimum of two inches in any direction and stock piled at the location identified on Drwg SWD-D-306R at the Contractor expense. The location of the stock pile area may vary throughout the Contract.
- (b) Have the capability of handling and cutting 36 inch diameter logs, 4 to 20 foot in length.
- (c) Build and maintain road to Site,
  - (i) As shown on drawing SWD-D-306R the Contractor shall be responsible to build and maintain a roadway to the work site at no cost to the City. The road shall be constructed with a minimum one meter clay base, twelve inches of four inch clean and six inches of two inch down.
- (d) Use existing logs and reuse for value added wood products (ie flooring, etc.);
- (e) Construct, maintain and staff an permanent information building within the first five years, promoting the waste utilization of trees at no cost to the City;
  - (i) The Contractor shall be responsible to build a minimum 1,000 square foot permanent information building at the location shown on drawing SWD-D-306R promoting the waste utilization to the satisfaction of the Solid Waste Services Division. **The building shall become the property of the City of Winnipeg after ten years of construction.**
  - (ii) The Contractor shall staff the building 5 days a week, eight hours a day with Saturday counting as one of the 5 days excluding statutory holidays. The Contractor shall be responsible for all cost associated with the construction, operation and maintenance of the building including, staffing and power supply for the building.
  - (iii) **In the event that the wood waste available for utilization as described in B11.6 becomes unavailable within ten (10) years of the construction of the permanent building as described in E3.4(e) (i), the city shall enter into negotiations with the successful bidder for the purchase of the building.**
