

NOTES:

**SCOPE OF WORK**

1. Contractor shall verify all dimensions and conditions of the flooring replacement on site.
2. Replacement of carpeting with 5.0 mm thick Tarkett Training heterogeneous sheet vinyl with high density foam back flooring for the Multi-Purpose Room.
3. Removal and disposal off site of existing carpeting and wall base in multi-purpose room.
4. Preparation of existing concrete substrate surfaces to accommodate new Tarkett Training flooring.
5. Supply and install new Tarkett Training flooring as per flooring manufacturer's instructions and recommendations.
6. Supply and install 100 mm (4") high Johnsonite wall base and transition edging/strips at dissimilar flooring materials.
7. Complete all caulking and sealing of new flooring at all door frames.
8. Contractor shall be responsible for the initial washing/cleaning of the new flooring material as per the flooring manufacturer's maintenance procedures.
