Failure to acknowledge receipt of this Addendum in Paragraph 9 of Form A: Proposal may render your Proposal non-responsive.**

---

#### **PART D – SUPPLEMENTAL CONDITIONS QUESTIONS AND ANSWERS**

Q1: In reference to D4.5 and D4.6, please comment on the level of analysis completed on the methane, leachate, and ground water data collected at each of the 34 sites, and whether compiling, processing, and detailed analysis of data is expected, or if a review of existing data analysis is expected to suffice (this would be based on your understanding of the completeness and adequacy of existing data analysis completed by the City). This information is being requested to understand the level of effort that will be required for the landfill status reports (D4.6.1).

A1: A review of existing data analysis is expected, in addition to a site visit for visual inspection.

Q2: In reference to D4.10, please comment on the level of analysis and detail required in regards to land use and future development potential. This information is being requested to understand the level of effort that will be required for the report due November 16, 2015.

A2: A high level analysis in the context of OurWinnipeg, Complete Communities or other City planning documents is expected.
