BY: Reetu Dewitt, P.Eng.
TELEPHONE NO. (204) 986-7455

THIS ADDENDUM SHALL BE INCORPORATED INTO THE REQUEST FOR PROPOSAL AND SHALL FORM A PART OF THE CONTRACT DOCUMENTS

Template Version: Ar20150105

Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Request for Proposal, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 9 of Form A: Proposal may render your Proposal non-responsive.

PART D – SUPPLEMENTAL CONDITIONS

- Revise: D4.1(c)(v) to read: Perform further engineering assessment and design for the sampler system and also for the touchscreen display at lane entrance gates/barriers. The assessment should incorporate structural components, repair requirements, ancillary work, and supplementary work based on the preferred option selected from conceptual design.
- Revise: D4.1(c)(vi) to read: Perform further engineering assessment and design for the install of an industrial grade PLC integrated system to replace the existing snow melt control system and for the install of a HMI screen in each of the service buildings (hauled liquid waste service building and leachate service building). The assessment should incorporate structural components, repair requirements, ancillary work and supplementary work based on the preferred option selected from conceptual design.
