#### D3. BACKGROUND

D3.1 On January 29, 2013 City of Winnipeg Council adopted the 2013 Capital Budget which includes funding of the Library Redevelopment Strategy as referred by the Standing Policy Committee on Protection and Community Services on July 5, 2012. The St. Vital Library Renovations Project will be delivered as a project within the Library Redevelopment program.

In 2014 the City of Winnipeg retained MCM Architects Inc. to conduct a Building Condition Assessment & Facility Feasibility Study of the St. Vital Library. The intent of the feasibility study was twofold. Firstly to fully assess the buildings current condition, site access and compliance to current Building and Accessibility Code and the City's Accessibility Standard, Secondly the study assessed the facilities functionality and its ability to address current and future library service and programming needs. The "Building Condition Assessment & Facility Feasibility Study" provides a framework which the building renovation project shall reference. A copy of the Building Condition Assessment & Facility Feasibility Study report is attached as Appendix C.

On May 5, 2014, Council favourably approved the Historical Buildings Committee's recommendation that, based on the historical and architectural significance of the property, the St. Vital Library, located at 6 Fermor Avenue, shall be placed on the Buildings Conservation List as a Grade III structure.

In 2015 the City of Winnipeg awarded a construction contract for the Elevator Installation Project. The total completion of this project will be finalized in February 2016. The installation of an elevator in the existing facility provides barrier free access to the lower and mezzanine levels of the facility, both of which were previously accessible only by stairs.

A key reference document that will be instrumental to the scope of the St. Vital Library Renovations Project is the "Program of Requirements", appending this RFP as Appendix B. This document, developed by Library Administration summarizes in detail the requirements for all functional and programming space within the Library as well as the required interior and exterior building upgrades. Areas noted as "Optional based on budget availability" are to be examined as the project development moves forward and as available funds allow.

The total estimated budget identified for the "construction only" portion of the St. Vital Library Renovation Project is \$1,400,000. Should additional funding become available during the

development of the renovation project documents, the items identified in the Program of Requirements as optional, will be examined along with City staff for possible incorporation into the scope of the project.
