APPENDICES

Add: Appendix_A GWWD Grade Crossing Assessment

Add: Appendix_B Existing Crossing Drawings

QUESTIONS AND ANSWERS

Q1: Regarding D15.1, (c) - If the City to rehabilitating the two crossing surfaces can the Contractor install signal conduits at this time to reduce/eliminate the need for directional drilling?

A1: There will be opportunity for the Contractor to coordinate with the City to have conduits installed while City crews complete crossing surface upgrades which are to be completed prior to construction commencement of this contract. This would minimize directional drilling, but it may still be required for some portions of the Work.

Q2: What is the train movement schedule?

A2: Typically, one train movement per week. Details to be confirmed prior to construction commencement.
