QUESTIONS AND ANSWERS

Q1: For anyone to include the cost of a manlift, they would need to know how long they have to rent the lift for. To know how long they need the lift, they would have had to inspect the job site to figure it out. Rentals are generally done by the hour or by the day. There is no practical way to break this down to a generic cost per foot. Please advise how you would like to proceed.

A1: **The following items will be removed from the Tender, Item No. 164, 165 and 166. If a crane/lift is required for the Work, the City will request a quotation from the Contractor.**
