PART B – BIDDING PROCEDURES

Revise: B2.1 to read: The Submission Deadline is 12:00 noon Winnipeg time, **July 2, 2021**.

APPENDICES

Replace: 434-2021 Appendix B – Additional Information with 434-2021 Addendum 1-Appendix B – Additional Information

The following is a summary of the change:

- Added - Drawing - U200-95-18 Wingwall Extensions - Piling Layouts and Foundation Plans

QUESTIONS AND ANSWERS

- Q1: Is there any geotechnical information available in the area of the siphon? If not, should we budget to drill a hole on each side of the creek to confirm if trenchless is feasible?
- A1: There is an Engineer's report regarding the geotechnical investigations as part of the previous overpass culvert project but we are unable to obtain a copy at this time. The record drawings provided in Appendix B of the Request for Proposal (RFP) state that the new 350 PVC watermain was augered, suggesting that trenchless is feasible. If upon the award of the RFP it is determined that test holes are required, we will issue a contract change for the work.
- Q2: Is the existing siphon a component of an existing Environment Act License? If so, can the City provide that Environment Act License?
- A2: This siphon falls under the license here: <https://www.gov.mb.ca/sd/eal/registries/1071.1/index.html>
