SECTION C – STEP 1 EVALUATION PROCESS OVERVIEW

C1. Evaluation Process

- C1.1 The City will not open Step 1 Submissions publicly. The City will evaluate the Step 1 Submissions in accordance with the following parts:

(a) Part 1

The Step 1 Submissions will be reviewed to determine whether they are substantially complete. The substantial completeness review will assess whether the required information and forms have been substantially completed and included in the Step 1 Submission. A Proponent's failure to provide a substantially complete Step 1 Submission will result in the Step 1 Submission not being evaluated. For the purposes of this Step 1 Process, "substantially complete" means that all documents have been submitted as required by these RFP Documents and have been completed without any major gaps in the information. For clarity, "substantially complete" is not a test of "absolute completeness".

(b) Part 2

The evaluation team established by the City will evaluate the Step 1 Submissions that pass the substantial completeness review. The evaluation team will evaluate and score the Step 1 Submission in accordance with the Evaluation Criteria set out in Table 1. The City will rank only those Step 1 Submissions that receive a "pass" on the "pass/fail" components and achieve the minimum passing score on the qualification evaluation. In the event that there is a tie in the aggregate qualification score among two or more Step 1 Submissions for the last Shortlisted Proponent position in the ranking, the following criteria, in order of precedence, shall be used to break the tie:

- (i) highest score in Section C;
- (ii) highest score in Section B; and
- (iii) highest score on social procurement portion of Section B.

(c) Part 3

The evaluation team established by the City will present the evaluation and ranking results from Parts 1 and 2 to an evaluation committee, also appointed by the City, including the identification of up to three highest ranked Proponents from Parts 1 and 2. The evaluation committee will review the findings of the

evaluation team and confirm up to three highest rated Proponents (from Parts 1 and 2) as the Shortlisted Proponents. The role of the evaluation committee will be to confirm that the evaluation team has carried out their respective evaluation, scoring and preliminary ranking in accordance with the requirements of the RFP Documents.

(d) Part 4

Subject to Section A3.1(a)(v) of the RFP and following approval by the City of the Shortlisted Proponents, the City will publish the identified Shortlisted Proponents on MERX.

C2. Financial Information Confirmation

C2.1 During the time period from the end of the Step 1 Process until the issuance of the Step 2 Process documents, the City may, in its sole discretion, request any Proponent to confirm that there have been no material changes to Section D: Financial Information submitted by the Proponent. If there have been any material changes to the Proponent's Section D: Financial Information, the Proponent shall report such material change in accordance with Section C3.1.

C3. Reporting of Material Financial Changes

C3.1 During the time period from the end of the Step 1 Process until the issuance of the Step 2 Process documents, each Shortlisted Proponent shall immediately report any material change to Section D: Financial Information submitted by that Shortlisted Proponent during the Step 1 Process and shall re-submit its updated financial information by providing all financial information originally required by Table 1 and any other information required by the City at that time ("**Updated Financial Information**"). The City shall evaluate the Updated Financial Information and may revise the Shortlisted Proponent's score to reflect the results of the re-evaluation. If, on the basis of the evaluation of the Updated Financial Information, the City determines that the Shortlisted Proponent has failed in accordance with evaluation criteria set out in Table 1, the Proponent will no longer be a Shortlisted Proponent.

SECTION D STEP 1 PROCESS EVALUATION

D1. Evaluation Criteria

D1.1 A Step 1 Submission that has passed the substantial completeness review will be subjected to a scoring evaluation based on the Evaluation Criteria set out in Table 1.

D1.2 An overview of the weightings for the evaluation in this Step 1 Process is set out in Section D2.

D1.3 The evaluation team will evaluate each Step 1 Submission based on the Evaluation Criteria.

D1.4 Evaluation Scoring:

- (a) Generally, scoring of the Submission Requirements of the Step 1 Submission against the evaluation criteria will be done a 0 to 5 scale. The scoring criteria is as follows:

Score	Scoring Criteria
0	The component of the Step 1 Submission has not been submitted.
1	The component of the Step 1 Submission is incomplete or inadequate, not allowing for full evaluation. When evaluated against the evaluation criteria, the component does not meet the Step 1 Submission requirements in Table 1. Material deficiencies noted.
2	The component of the Step 1 Submission is complete. When evaluated against the evaluation criteria, the component does not meet, or can only partially meet, the Step 1 Submission requirements in Table 1. Material deficiencies noted.
3	The component of the Step 1 Submission is complete. When evaluated against the evaluation criteria, the component can mostly meet the Step 1 Submission requirements in Table 1. Only non-material deficiencies noted.
4	The component of the Step 1 Submission is complete. When evaluated against the evaluation criteria, the component fully meets the Step 1 Submission requirements in Table 1. No deficiencies noted.
5	The component of the Step 1 Submission is complete. When evaluated against the evaluation criteria, the component exceeds the Step 1 Submission requirements in Table 1 and may provide additional benefit to the City. No deficiencies noted, or if any non-material deficiencies are noted, they are mitigated by enhancements in the Step 1 Submission.

- (b) A score of 0 to 5 will be given for each separate Submission Requirement in accordance with how well it compares against the evaluation criteria listed in Table 1. The score ratio out of 5 is multiplied by the maximum possible points to calculate the points contribution for that Submission Requirement (rounded to one decimal place). These are summed for each Submission Requirement to determine the total points contribution for the Step 1 Submission Section.

D1.5 Proponents are cautioned that a Proponent which fails to meet:

- (a) a minimum threshold of 55/100 points applicable to the total available points applicable to the entire Step 1 Submission may, as a result, be prevented from becoming a Prequalified Proponent, in the City's sole discretion;
- (b) minimum threshold of 3/10 points applicable to the total available points applicable to the social procurement objectives of the Construction Team in the Step 1 Submission may, as a result, be prevented from becoming a Prequalified Proponent, in the City's sole discretion; and
- (c) any Pass/Fail threshold applicable to the Step 1 Submission will be prevented from becoming a Prequalified Proponent.
