QUESTIONS AND ANSWERS

- Q1: In the observability requirements, Line 17 of the From N – Requirements, The City of Winnipeg indicates that The City requires the ability to support log collection and retention and integrate with existing log management solutions where you specifically mention that the solution be capable of integrating with various log management platforms, including McAfee Enterprise Security Manager and Splunk. Our question is why do you use McAfee Enterprise Manager and Can you mention if you are still using McAfee Endpoint?
- A1: McAfee Enterprise Manager is used as an SIEM, has minimal configurations, and is approaching the end of its life. The City is not using the McAfee endpoint.
- Q2: How many full-time employees (users) are you planning to cover with the MDR service?
- A2: approximately 6600 full-time employees
- Q3: How many part-time employees (users) are you planning to cover with the MDR service?
- A3: approximately 1000 part-time employees
