PART D – SUPPLEMENTAL CONDITIONS

- Clarification of D2.2: The roll-off bins or other equivalent containers as well as the trucks to transport material are supplied by the City.
- Revise: D2.2(b) to read: Loading carts and lids of both 240 and 360 litre (L) volumes into mechanical grinder and discharging finished material of approximately 4” or less in size directly into roll-off bins, equivalent containers or onto a storage area to be transported;
- Revise: D2.2(c) to read: Loading HDPE collection bin lids into mechanical grinder and discharging finished material of approximately 4” or less in size directly into roll-off bins or equivalent containers or onto a storage area to be transported;

QUESTIONS AND ANSWERS

- Q1: Is there a certain spec for the finished material you are looking for?
- A1: We don't have a set standard but pieces smaller than 4” is ideal. Please refer to revised D2.2(b) and D2.2(c).
- Q2: When the material is being ground, are we to spot a truck or bin to move the material to another location or will you provide that?
- A2: Please refer to clarification of D2.2.
