

## 309-2024 ADDENDUM 2

### PROFESSIONAL CONSULTING SERVICES FOR DESIGN AND CONSTRUCTION SERVICES FOR BRADY ROAD RESOURCE MANAGEMENT FACILITY – AREA B

#### **URGENT**

**PLEASE FORWARD THIS DOCUMENT TO  
WHOEVER IS IN POSSESSION OF THE  
BID/PROPOSAL**

ISSUED: May 14, 2024  
BY: Ash Raichura, P.Eng.  
TELEPHONE NO. 204 986 4103

**THIS ADDENDUM SHALL BE INCORPORATED  
INTO THE BID/PROPOSAL AND SHALL FORM  
A PART OF THE CONTRACT DOCUMENTS**

Template Version: Add 2024-02-01

---

**Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Bid/Proposal, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 10 of Form A: Bid/Proposal may render your Bid/Proposal non-responsive.**

---

#### **QUESTIONS AND ANSWERS**

- Q1: Please verify the intent of the Fill Plan. Is the quarterly fill sequence plan to apply just to the engineered cell to provide direction on how to fill the waste in lifts by SWANA or pancake fill methods, also called the daily waste cell, for two years? Or is this a phasing plan for the two years as engineered cells as provided in the Master Plan.
- A1: Clarifying D5.1.8., the quarterly fill sequence plan shall be applied to the constructed waste disposal cell with a design capacity of two years.
- A general (cell-by-cell) phasing plan for the 'two-year' waste disposal cells within Area B is also required to provide context and guidance for long-term development of Area B, especially access roadways and leachate and landfill gas collection system infrastructure, as described in D5.1.8(b).
