INTO THE BID/PROPOSAL AND SHALL FORM
A PART OF THE CONTRACT DOCUMENTS**

Template Version: Add 2024-02-01

Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Bid/Proposal, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 10 of Form A: Bid/Proposal may render your Bid/Proposal non-responsive.

QUESTIONS AND ANSWERS

- Q1: Quantities listed on Price Form A&B. Are they annual or spread over five contract duration?
- A1: This is a one year contract. Quantities are estimated for the one year.
- Q2: Submission for equals / alternates. What technical information is preferred for equals/ alternates to be considered?
- A2: Refer to B6.4 of the Tender. This would include but not limited to specifications sheet, cut sheets, videos showing installations etc. A sample of the product(s) may be asked for.
- Q3: Delivery 1277 Pacific, will off-loading be facilitated by City staff?
- A3: Refer to D10.6 of the Tender. The PWD Stores does have a forklift and can assist/facilitate the off-loading. However depending on the mode/type of transportation/delivery the Stores department may be restricted as to what they can do with the equipment they have.
- Q4: Delivery mandatory Via flat deck?
- A4: I believe this would be the simplest to off-load and Stores staff can assist/facilitate the off-loading. Just note that City staff will not enter an enclosed/box trailer to move items.
- Q5: Reel specification? Disposable wood? Collapsible returnable steel?
- A5: Max width is 45" with max diameter is 100". The 100" reel should work for the Item No. 1 in the Tender. Item No. 2 can come on a smaller reel as long as the width is not exceeded. Reel material can be wood or metal. Contractors have varying reel policy returns that can be addressed post construction season. Bid submission should include reel deposits if there are any. What reels can be returned will be evaluated post construction season.
