#### **QUESTIONS AND ANSWERS**

Q1: Do all the trees listed in the Approximate Quantity column on Form B have to be removed by the June 26, 2026 Critical Stage?

A1: No. Only a portion of the estimated total number of trees on Form B are tagged trees that remain from our 2025 season. Only trees tagged in and up to 2025 must be removed by the June 26, 2026 Critical Stage. This number is estimated to be at around 50 at this time, but there may be additional trees added or removed once the preview is issued. The remaining number of estimated trees after the 2025 tagged trees are removed will be based on trees tagged in the upcoming 2026 DED season. Trees tagged in the 2026 season will make up the remaining estimated total number of trees to be removed by the December 11, 2026 Critical Stage.
