DRAWINGS

Replace: 116-2025 _Drawing_C201-R0 with 116-2025 _Addendum_3_Drawing C201-R1

QUESTIONS AND ANSWERS

Q1: What is quantity of the “Existing Topsoil Stockpile”?

A1: Approximately 5160 m^3 based on a July 2025 survey, note this is an estimate provided for the Contractors information only, no warranties or guarantees are made on the available quantity at the time of the Work.

Q2: MH-11 has a 1050 connection. Does this get installed regardless of the provisional “1050 CPKC Rail Crossing” getting awarded?

A2: The 1050 connection to MH-11 is provisional based on CPKC approval of the crossing application. If MH-11 is in production or installed prior to CPKC approval of the 1050 Rail Crossing then MH-11 shall not have a 1050 rough opening.
