#### **QUESTIONS AND ANSWERS**

- Q1: Would you be able to estimate the quantity of foam for the initial purchase and subsequent purchases throughout the year? Or would you be able to provide the quantities purchased in previous years?
- A1: It is not easy to forecast the use of this product as there are many factors that attribute to the overall consumption. We order 5 pallets at a time; this can last 3 to 5 months. So, we can say that we order 5 pallets 4 times per year every 3 months. We asked for more in the tender as the City is growing and foam usage is increasing. Also please refer to B9.2 and B9.3 of the Tender.
