D19.4 The following is a preliminary schedule of the Rounds.

Round Number	Subzone(s)	Round Start Date	Working Days
NN1	N4A, N4B	May 20, 2025	21
NN2	N4C, N5A	June 18, 2025	17
NN3	N5B, N5C	July 14, 2025	12
NN4	N6A, N6B	July 30, 2025	12
NN5	N4A, N4B	August 18, 2025	10
NN6	N4C, N5A	September 2, 2025	10
NN7	N5B, N5C	September 16, 2025	10
NN8	N6A, N6B	October 1, 2025	10

D19.5 The Contract Administrator will visit each location prior to providing the Round list to the Contractor and will mark out the limits of the Work required to complete the restoration. The Contract Administrator will measure the area marked out at each location and record the quantities on the Round list.

D19.6 The Contractor shall use the Field Markings and the quantity shown on the Round list to complete the restorations. No measurement for payment will be made for materials placed outside the limits of the Work, for each location.

D19.7 Where the Field Markings are not visible the Contractor shall make arrangements with the Contract Administrator to have the locations re-marked. The absence or visibility of the Field Markings will not alter the conditions of measurement described in D19.6.

D19.8 Where the Contractor is of the opinion that there is a discrepancy between the Round list quantity and the Field Markings, the Contractor shall make a request that the Contract Administrator review the location. The location will be adjusted at the Contract Administrator's discretion, the location will be marked and the quantity will be revised as necessary to reflect any corresponding adjustment(s).

D19.9 The Contractor shall submit a Route List for each Round to the Contract Administrator one (1) Business Day prior to the Round Start Date.

D20. EXTENSION OF ROUND COMPLETION DATES

D20.1 Round periods are established on the basis of the actual Work not exceeding an average daily rate of sod placed per day, for each Subzone. The rate is as follows:

Subzone(s)	Rate (sq.m./day)
N5A, N5B, N5C, N6A, N6B	150
N4A, N4B, N4C	100

D20.2 Should the actual revised amount of sod to be placed, including any additions in accordance with D21, to complete a Round be greater than the Average daily rate multiplied by the Round Period, the Round Completion Date shall be extended in accordance with the example in D20.3.

D20.3 Example Calculation:

Round Commencement Date = July 2

Round Completion Date = July 29

Round Period = 20 Working Days

Average Daily Rate = 150 sq.m./day

Total Revised Inspector Quantity = 3,045 sq.m.

Round Period (days) X Average Daily Rate (sq.m./day) = Round Period Max. Quantity

20 X 150 = 3000 sq.m.

Total Revised Inspector Quantity - Round Period Maximum =

3,045 - 3,000 = 45 sq.m.

In this example the Working Days would be extended by:

Round Period Maximum Quantity / Average Daily Rate =

45 / 150 = 0.30

Fractions of a day will be rounded up to a full day, therefore extension will be one (1) Working Day.

D21. SHORT NOTICE RESTORATIONS

D21.1 Short Notice Restorations shall be completed as specified in E4.25. Short Notice Restorations will be limited to a maximum of two (2) Cut Permits in any week where the locations are not in the same Subzone, and four (4) Cut Permits in any week where two or more of the locations are in the same Subzone and are assigned to the Contractor at the same time. Locations assigned as Short Notice Restorations may or may not be on a current Round.

- (b) The total mud Cut quantities on Cut Permits for each Section issued by the City following bid preparation that are deemed ready for restoration by the Contract Administrator.

D22.2 Notwithstanding C7.5, no claim shall be made for damages on the ground of loss of anticipated profit on Work diminished or on any other ground should the value of the Contract Price be diminished by an amount exceeding fifty percent (50%) as a result of the major components of the Work as identified in D22.1 not meeting the estimated approximate quantities for each Section on Form B: Prices.

Failure to provide this notice will result in no additional time delays being considered by the City.

No additional payment will be made for adjustment of schedules except where seasonal work, not previously identified in the Contract, is carried over to the following construction season.
- D27.6 Where Work not previously identified is being carried over solely as a result of delays related to Supply Chain Disruption, as confirmed by the Contract Administrator, the cost of temporary works to maintain the Work in a safe manner until Work recommences, will be considered by the Contract Administrator. Where the Work is carried over only partially due to Supply Chain Disruption, a partial consideration of the cost of temporary works will be considered by the Contract Administrator.
