QUESTIONS AND ANSWERS

- Q1: Drawings 1-0630M-A0031, 1-0630M-A0032, 1-0630M-A0033 & 1-0630M-A0037 which are referenced on drawings 1-0630M-E0026 & 1-0630M-E0027 & 1-0630M-E0029 respectively are not on the drawing index for Maclean Pumping Station and do not appear to be in the provided package. Please advise if this is to be included.
- A1: Drawings 1-0630M-A0026, 1-0630M-A0027, and 1-0630M-A0029 are existing City of Winnipeg drawings and only the work shown within the revision clouds are part of the scope of work. The drawing numbers referenced in the question are associated with existing infrastructure on the drawings and do not contain revision clouds and is not part of the scope of work. This is applicable to all drawings with revision clouds.
- Q2: Looking for information on type and number of strands for the fibre optic cables to be pulled at Hurst and McPhillips? Please advise.
- A2: Each fibre cable specified will be 2 strands, OM3, Multi Mode. All fibre cables shall be tested in accordance to current code requirements. Fibre network cable specification 446633 has been included as part of the addendum.
