E2.7 The Contractor shall furnish the bill of lading showing certified weights of goods received and the liquid ferric chloride certificate of analysis to the City upon delivery.

- (a) No delivery will be accepted by the City unless accompanied by the certificate of analysis for the specific batch or lot of liquid ferric chloride delivered and the quantity of the specifications listed are met.
- (b) The Contractor shall remove and replace any and all contaminated liquid ferric chloride that fails to meet these specifications or the liquid ferric chloride will be removed by the City and the cost for removal and disposal will be billed to the Contractor.

**E2.8 Inspection Requirements:**

- (a) It shall be the Contractor's responsibility to perform all tests and inspections required by this specification and to identify the source of the submitted chemical and physical composition.
- (b) The City or its duly authorized representative reserves the right to sample and test each shipment of chemical upon delivery and to reject shipments that do not conform to these specifications.

**E2.9 A full liquid ferric chloride elemental analysis plus pH must be submitted to the Contract Administrator prior to awarding of contract and before any contract extension. The minimum metal testing for this analysis are:**
