HIGH HAZARD DISPLAY FIREWORKS EVENT APPROVAL

CONDITIONS AND REQUIREMENTS

Applicant must ensure the High Hazard Fireworks Permit is submitted 7 days prior to the event. A High Hazard Fireworks Permit application requires all of the following items and the Applicant must:

1. Provide proof of possession of a Natural Resources Canada Fireworks Supervisor Level 1 or Level 2 Card appropriate for the fireworks to be used in the display for each individual who will purchase, handle, discharge, fire or set off any fireworks materials and/or devices.
2. Provide demonstrated knowledge and experience in applying the standards and requirements specified in the Natural Resources Canada Display Fireworks Manual on the part of each individual who will purchase, handle or discharge, fire or set off any fireworks materials and/or devices.
3. Provide written permission to conduct a fireworks display from the property owner or agent of the land AND the owner or agent of neighboring land on which fireworks debris might reasonably be expected to fall.
4. Provide a Certificate of Liability Insurance (minimum \$5,000,000).
5. Provide detailed product information including a count and description of each effect being used. Product information must include the product name, manufacturer and *UN Number from the ERD list of authorized explosives. (*published by the Explosive and Regulatory Division, Natural Resources Canada.)
6. Provide an event description that includes the time that fireworks will be on site, time of site lock down, time of set-up completion, a list of devices and effects to be used, firing procedures, emergency procedures, description of site security and site clean-up.
7. Provide a list of attending crew members and crew members qualified in first-aid.

NOTE: An inspection of the proposed site and a demonstration of the fireworks may be required prior to issuance or as a condition of an approved permit. An inspection that is required outside of regular business hours (08:00-16:30 hrs Monday to Friday) will incur a fee. The demonstration will be required to take place prior to arrival of audience members. As a result of the demonstration, additional precautions may be required and the permit may be revoked at the discretion of the Fire Prevention Officer in attendance.

HIGH HAZARD DISPLAY FIREWORKS EVENT APPROVAL

ADDENDUM TO ALL:

High Hazard Display Fireworks Event Approvals

and

Pyrotechnic Special Effects Event Approvals

and

Flame Effect Event Approvals

DISCLAIMER:

This permit is issued solely for the use of High Hazard Fireworks, Pyrotechnic Special Effects and Flame Effects as defined in the Winnipeg Fire Prevention By-Law No. 35/2017. This permit does not grant approval for the design of propane equipment and devices used in conjunction with fireworks or pyrotechnics. Furthermore, any electrical requirements that pertain to electrical firing for fireworks or that are associated with the generation of flames by means of propane or other sources must comply with the Canadian Electrical Code. Additional approvals may therefore be required by other City and/or Provincial jurisdictions.

I have read and understand these requirements.
