% of Available Time reflect the time a unit is on duty and available.

% of Delay Time reflects all time after 30 mins at a hospital until the unit status changes to Available or Off Duty

The decrease in time may be attributed to less offload time accumulated and the crews efforts in transitioning to an Available status more quickly.

Apparatus changes were applied on October 14, 2017. The units listed above will be categorized under the station they are assigned to as of December 31, 2017.
