- 9.5** The subject material of the four (4) progressive tests shall be taken from the I.F.S.T.A. manuals or other job related material. Employees shall be given four (4) months advance notice of the date of the progressive test and shall be provided a study guide outlining major topics of that test, appropriate reference material and an opportunity to review the subjects with an Academy Instructor.
- 9.6** The Union shall have the right to review, and discuss effectiveness in performance of the test system, and review and discuss modifications to the test system.
- 9.7** The progressive tests shall be conducted in a manner that will not interfere with an employee's earned annual vacation or public holiday leave provided for under this Agreement.

- 9.8 The progressive tests shall be held when an employee is on duty. If this is not possible, then an employee who is off duty and is required to write such a test, shall be paid as provided for in Article 14 of this Agreement.
- 9.9 Should the employee not successfully complete a test the Department shall ensure that the employee has an opportunity to rewrite the test within sixty (60) days with no penalty.

- a) **District Chief will be made in accordance with Appendix 2;**
- b) **Platoon Safety Officer will be made in accordance with the Memorandum of Agreement Re: Platoon Safety Officer;**

and;

- 9.16 After the candidate has been approved by the Medical Health Officer of the City as being of a degree of medical fitness appropriate to the rank for which the promotion is being sought. If an employee is not approved by the Medical Health Officer of the City, as aforesaid, he/she shall be entitled to appeal the decision of the Medical Health Officer to the **Chief** and the **Chief** may obtain an independent medical opinion as to the employee's medical fitness appropriate to the rank for which the promotion is sought.
- 9.17 After the satisfactory completion of a one (1) year probationary period, the employee shall be confirmed in the rank.
- 9.18 If an employee's performance during his/her probationary period is found to be unsatisfactory at any time during that period, he/she shall be advised at the time in detail as to the unsatisfactory aspects of his/her performance.

Company Officer Development Program – Operations Branch

9.19 A Company Officer Development Program hereinafter called “the Program” will be established.

9.20 Employees will be offered the opportunity to participate in the Program by seniority and must successfully complete the Program to the rank for which the promotion is being sought, before being eligible for promotion. Employees must also successfully complete the Program to the rank for which promotion is being sought prior to being placed in the position of Acting Officer status for that rank.

If an employee returns from a leave that was for reasons of illness or other incapacity, and if not for the leave the employee would have otherwise had the opportunity to participate in a particular step in the Program, the Chief will give consideration to allowing the employee to enter into that step upon return from leave. If allowed to enter the step, the employee will be allowed or scheduled to participate in the components of that step when those components are normally available.

9.21 The Department will make efforts to make Company Officer Training available early in the employee's career. A member will not be allowed to Act as Lieutenant until he or she has successfully completed the Fire Officer I Program. A member will not be allowed to Act as Captain until he or she has successfully completed the Fire Officer II Program.

The parties recognize that from time to time, there will be circumstances wherein an overtime call-in may be required to cover the need to fill a staffing requirement for Lieutenant or Captain.

If it can be demonstrated that the City has not taken reasonable steps to ensure that Fire Fighters have had the opportunity to complete the Program to the rank for which the member could have reasonably expected to be trained to be allowed to Act, and through no fault of the member in question, the Chief will arrange for remuneration to the member for lost acting opportunities. Each case will be dealt with on its own merits.

9.22 An employee who fails to successfully complete any component of the Program under Article 9.20 and wishes to re-attend that component, must do so on his/her own time and expense.

The Department will take reasonable steps to allow the member to take a retest as soon as reasonably practical. If the member fails the test again, the member must re-attend that component at his/her own time and expense.

9.23 An employee who successfully completes the Program to the rank for which the promotion is being sought but who chooses not to act within that higher rank will be dealt with in a manner consistent with Article 9.48 of the Collective Agreement.

9.24 If a member, entitled to participate in a course in the Program, is incapacitated to a degree that the member is temporarily unable to perform normal firefighting duties, and is therefore on sick leave or Workers' Compensation Benefits, but is sufficiently fit that he/she is able to participate in the course, he/she shall not be prevented from doing so.

9.25 If an in-class portion of the Program falls during the employee's earned annual vacation period or his/her public holiday leave, an employee may indicate, in writing to the Chief or designate,

his/her desire to attend the in-class portion of the Program and request that his/her vacation period be changed to another date or dates, subject to the approval of the Chief or designate.

- 9.26** The Program shall be ~~as~~ outlined in Appendix 3, subject to modifications as noted in Appendix 3.

Note: Letter of Understanding #15 deleted and replaced with new Appendix 3 subject to implementation as per Appendix 3.

- 9.27** The requirement as to the depth of learning in each topic and the procedures used in the assessment and method of evaluation of the Program, will be subject to input from, and agreement by, the Union.

The exception to the clause requiring input and agreement by the Union is any component of training that falls within the accredited Fire Officer Level I and Fire Officer Level II Programs, including which institution delivers these Programs and how the Programs will be delivered.

- 9.28** Academy attendance for the in-class component of the Program will be held Monday to Friday inclusive, subject to the provisions of Article 13 – Hours of Work.

Assignment and Promotion to the Fire Prevention Branch, Public Education Branch and the Academy of Fire and Emergency Services.

- 9.29** It is understood and agreed by the parties that it will not be mandatory for present incumbents only, at the date of signing of the Agreement (meaning Agreement signed June 3, 1998), in these Branches to take Level I, II or III courses, however, these courses will be made available to these members on a seniority basis.
- 9.30** It is understood and agreed by the parties that salary increments will not be withheld if training courses are not available in the Winnipeg Fire Department to the members.
- 9.31** Assignment to fill vacancies in the Fire Prevention Branch, Public Education Branch and the Academy of Fire and Emergency Services shall be made by seniority from a list of applicants, created in January of each year, or additionally if exhausted, provided they have attained a minimum of First Class Fire Fighter.
- 9.32** Employees selected for assignment to the Fire Prevention Branch and the Public Education Branch as a Fire Inspector or a Public Fire Educator and employees selected for assignment to the Academy of Fire and Emergency Services as an Instructor, shall, within six (6) months, complete and formally meet Level I requirements of the pertinent NFPA 1031, 1035 or 1041 Standard.
- 9.33** After completing six (6) months and meeting the Level I requirements the employee shall be promoted to the respective Branch.
- 9.34** Employees in these Branches shall, within eighteen (18) months of date of assignment, complete and formally meet Level II requirements of the pertinent NFPA 1031 and 1035 or 1041 Standard.

- 9.35** Employees in these Branches shall, within thirty (30) months of date of assignment, complete and formally meet Level III requirements of the pertinent NFPA 1031 and 1035 or 1041 Standard.
- 9.36** Attendance and participation in the Level I, II and III instruction shall be on Department time and shall not interfere with the employee's earned annual vacation or public holidays.
- 9.37** Methods for delivery and assessment for Level I, II and III instruction shall be subject to discussion by the Department and the Union.
- 9.38** Delivery and assessment for Level I, II and III instruction may be assigned to a third party mutually agreed to by the parties.
- 9.39** Effective eighteen (18) months after signing January 1, 1999, and providing those employees of the respective Branches have been given an opportunity to attend the training, acting in a higher rank in the respective Branch will require the employee to be enrolled in, or complete and formally meet the requirements of, Level III of the pertinent NFPA 1031 and 1035 or 1041 Standard.
- 9.40** Rates of pay for all service worked in the Branch will be at the salary, for the position appointed to, as stated in Appendix 1 of the current working Agreement.
- 9.41** Upon promotion, as stated in Article 9.33, an employee will serve a one (1) year probationary period in the Branch.
- 9.42** The Deputy Chief of Support Services, in the case of the Fire Prevention Branch, the Public Education Branch and Academy of Fire and Emergency Services, has the authority to remove an employee from any Branch during the in-service training period and the probationary period for just cause, or to reduce an employee in rank for just cause.
- 9.43** Should an employee of any branch wish to return to Operations, the following conditions will apply:
- a)** The employee must be medically fit to fulfill the duties as per the job description of the position to which he/she is returning, as determined by the City of Winnipeg EOSH return to work process.
 - b)** If the employee has been assigned and/or promoted to the Fire Prevention Branch, Public Education Branch, or Academy of Fire and Emergency Services for a period not exceeding three (3) years, no condition other than Article 9.43(a) above shall apply. Upon return he/she will be placed on the seniority list for promotion in the same relative position held prior to leaving the Branch. Promotion and/or acting in a higher rank shall be subject to the employee meeting the requirements of Articles 9.15 through 9.18.
 - c)** If the employee has been assigned and/or promoted to the Fire Prevention Branch, Public Education Branch or Academy of Fire and Emergency Services for a period exceeding three (3) years the following conditions shall apply:
 - i.** Paragraph 9.43(a) above shall apply.

- ii. Employees who leave the Fire Prevention Branch, Public Education Branch or Academy of Fire and Emergency Services Branch(es) after the three (3) year period and return to Operations will have
 - 1. their seniority for the purposes of promotion to a higher rank in Operations, AND;
 - 2. their service for the purposes of determining rate of pay,
 adjusted to reflect a period of absence from Operations equivalent to the period of time spent in the branch(es) that exceeds three (3) years.
- iii. Employees who return to Operations will be placed at the Fire Fighter rate of pay commensurate with their adjusted service date. Promotion and/or acting in a higher rank shall be subject to the employee meeting the requirements of the position, in particular for the rank of Lieutenant and Captain that includes the requirements of Articles 9.15 through 9.18.

Employees in the Branches on the date of ratification who do not exceed five (5) years' service in the Branches prior to January 1, 2014, may return to Operations prior to January 1, 2014, under the same terms as if they returned within a period not exceeding three (3) years. On and after January 1, 2014, the provisions of 9.43 (c) (i) through (iii) apply for such employees.

- d) The employee shall submit a written request to the Chief or designate to return to Operations. The date requested to be returned to Operations will be considered the effective date that the employee returned to Operations for the purposes of calculating adjusted seniority and service in accordance with (c)(ii)(1) and (c)(ii)(2) above.

If the member's adjusted seniority as per (c)(ii)(1) above is the same seniority date as another member or other members in Operations, then that member returning would be most junior in that seniority date group.

- e) An employee that requests to leave the Branch will be transferred no sooner than two (2) weeks and no later than three (3) months from the date of that request, inclusive of any banked time owing.
- f) If an employee returns to Operations and if not for being in one of the above named Branches, the employee would have otherwise had the opportunity to participate in a particular step in the Program, the Chief will give consideration to allowing the employee to enter that step upon return to Operations. If allowed to enter into the Program, the employee will be allowed or scheduled to participate in the components of that step when those components are normally available.

- b) The Bulletin will identify the required and preferred qualifications for a successful candidate. It will also indicate what type of testing will be involved, and what topics may be tested, if that is the City's intent.
- c) Interviews of applicants for any of the above ranks will be conducted by a Selection Panel composed of the Chief, Deputy Chief of Operations, Deputy Chief of Support Services and Manager of Human Resources or designates and one (1) Observer designated by Local 867 of IAFF. That Observer serves as a witness only, and is not part of the Selection Board and is not part of the decision making process.
- d) Time spent by an employee acting in any of the above ranks on an acting basis shall not be considered as a guarantee of subsequent promotion or appointment to any vacancy in such ranks but will only form part of the career record of the employee so acting.
- e) After an evaluation of the employee's service record, training record and resume, related to the stated qualifications, those employees selected by the Panel will be interviewed by seniority.
- f) Senior selected candidates from each Branch will be given first consideration, however applications for the positions of Director of Fire Prevention, Director of EMSB, Director of Training, and Safety and Equipment Officer may be received from any Branch.
- g) Any candidate who has made application for promotion to any of the above ranks and is not chosen or appointed to fill such vacancy shall have the right to make application to fill any vacancies in such ranks as they occur in the future.
- h) Upon completion of the Selection Process and prior to the notification of the general membership, the successful candidate will be advised. Thereafter the unsuccessful candidate(s) will be notified, in writing, of the Selection Process outcome and reasons, and offered an opportunity for feedback as to the reasons of his/her unsuitability. If requested, this feedback review will be scheduled with the Candidate and the Manager of Human Resources, or designated as per Article 9.44 (c).

Removal from Eligibility List or Reduction in Rank in Operations Branch

- 9.45** Recommendation to the Chief for removal of a member from the Eligibility List for promotion and/or the reduction of a member from the rank he/she then holds for just cause will be reviewed by the Assessment and Selection Panel prior to a decision being rendered by the Chief.
- 9.46** In such cases, the Chair of the Panel shall be the Deputy Chief of Support Services. The Deputy Chief of Operations shall present the case of the Department to the Panel. The Panel shall allow the member concerned, with the assistance of the Union if he/she so desires, to attend the meeting of the Panel and make such submission to the Panel as he/she wishes. After the hearing, as aforesaid, the Panel shall advise the Chief of the recommendation it is making.

- 9.47** Prior to the **Chief** making his/her decision, he/she shall review the entire case and shall call the member concerned to appear before him for that purpose. The member shall be entitled to appear with legal counsel. The **Chief** shall render his/her decision in the matter to the member concerned and the Union as soon as possible following such review.

Refusal to Seek Promotion

- 9.48** Employees may at any time submit a letter stating that they do not wish to act in a higher rank. Such letters may be withdrawn at any time; however, in the event of such withdrawal, said employee shall not become eligible to resume acting in a higher rank for a period of twelve (12) continuous months immediately following the withdrawal of the letter.

Disability

- 9.49** A member of the Department, who has turned down or been passed over for promotion because of disability or injury and who returns to the service of the Department, shall be considered for the next promotion to the rank for which he/she is qualified by seniority provided he/she has served in an acting capacity in that rank for a minimum of twelve (12) months. If he/she has not completed this acting period he/she will be required to serve in an acting capacity for the twelve (12) months or the remaining portion that would total twelve (12) months before being eligible for promotion to the rank at which he/she has been acting. Such returning member shall also be allowed to act in such higher rank as his/her seniority warrants until such time as he/she has been given the opportunity to qualify for and successfully complete the Officers' Training course and, upon successful completion, shall receive the first promotion for which he/she is eligible provided that he/she has completed his/her minimum twelve (12) months in an acting capacity.

Collective Agreement, Grievance and Arbitration Procedures

- 9.50** It is understood and agreed by all parties hereto that the provisions of the Collective Agreement between the parties shall apply MUTATIS MUTANDIS to all grievances, disputes or differences of opinion arising between the parties under this Article.

On-Shift Trainers (Facilitators)

- 9.51** There may be On-Shift Trainers in a faculty model for various programs to include, but not limited to, Hazardous Materials, Technical Rescue, and Water Rescue. There shall be four (4) On-Shift Trainers plus a total of four (4) alternates, with one assigned to each platoon, per specialty program
- 9.52** The City shall provide the designated Trainers with training on how to train.
- 9.53** These special Trainers shall continue to be assigned at Stations where the special equipment is available in order to enhance their expertise, and in order that they be available for fire scenes involving that skill or equipment. The positions will be for periods of four (4) years maximum with rotation and reposting expected at that time.

These Trainers shall receive a two percent (2%) pay increment applicable to the entire year, subject to a maximum of one hundred and twenty-five percent (125%).

- 9.54** For vacancies, subject to **Section 9.51** the opportunities for **Hazardous Materials, Technical Rescue and Water Rescue** shall be posted and the senior qualified applicant on the shift in question in respect of the particular skill being trained shall be awarded the position. **In filling these vacancies it is agreed that preference will be given to the existing alternate On-Shift Trainer recognizing that this creates a variance to senior qualified**
- 9.55** Additional On-Shift Trainers for any program may be selected by the City as per Section 9.53 above.
- a) knowledge of the skill area to be taught; and
 - b) aptitude to teach (which does not require a pre-appointment teaching certification).

When training or preparing for training as authorized by the City, these additional Trainers shall receive an additional two percent (2%) pay for time worked in the said training and authorized preparation time, to a maximum of one hundred and twenty-five percent (125%).

- 9.56** The purpose of the use of additional On-Shift Trainers is not to undermine or erode the role of the Academy, to erode the number for Fire Fighters on active duty on suppression on a particular shift or to avoid the application of Sections 9.51 and 9.52 in positions of essentially the same training activity and responsibility.
- 9.57** For Hazardous Materials, Technical Rescue and Water Rescue Programs a Coordinator/Chair shall be (rotated) between the four (4) On-Shift Trainers and will retain the two percent (2%) premium while serving as Coordinator/Chair. The On-Shift Trainer designated in the Coordinator/Chair position will be replaced as the On-Shift Trainer by the alternate On-Shift Trainer.

Hiring in Fire Prevention

- 9.58** First opportunity for any position in Fire Prevention will be given to the senior Fire Fighter applicant, at the appropriate Fire Fighter Fire Prevention rate.
- 9.59** If the City so posts a position and no qualified Fire Fighter applies for it, then the City is at liberty to post a position for a Level I Fire Inspector at a rate to be agreed upon by committee. Qualified applicants from EMSB shall be granted the position, on a permanent basis, on the basis of seniority and shall receive the greater of the rate for this position or their former rate at EMSB. That rate will be frozen until the junior level Fire Inspector rate catches up to that rate. However, if the EMSB has taken the Fire Inspector position due to the elimination of his EMSB position, he/she shall receive fifty percent (50%) of the general wage adjustments for the bargaining unit, until the junior Fire Inspector rate catches up to that adjusted rate. If there are insufficient such qualified applicants, the City may hire from outside on a two (2) year term basis.
- 9.60** The Level I Fire Inspector position shall be within the bargaining unit of UFFW, and subject to the benefits under the Collective Agreement. When the term expires, the City shall post to see whether a qualified Fire Fighter applies for the position, failing which the term may be renewed.
- 9.61** Term Fire Inspectors will receive benefits on a prorated basis but the method of applying prorated benefits will be consistent with the pro-ration factors applied in other City of Winnipeg collective agreements.

9.62 Right to Return to Former Position

Employees that are promoted or transferred to a position outside of the bargaining unit shall retain seniority rights in the position which they held prior to the promotion or transfer for a period of six (6) months. During this six (6) month period they may return to their former position at their own request, or as a decision of management, without loss of seniority or other accumulated rights, except for promotions which may have taken place during their absence. It is agreed that during this period the employee will not participate in collective bargaining negotiations.

ARTICLE 10 - SENIORITY

- 10.1** In determining an employee's length of service for seniority purposes, computation of such service shall begin from the date on which the employee began work in the Department except as provided in Article 10.3 below.
- 10.2** If more than one (1) employee commenced employment on the same day, seniority shall be determined by the registration number given to the employee at the time he/she commenced employment with the lower number being the more senior.
- 10.3** Former employees reentering the service of the Department after their continuity of service has been broken for any reason (emergency service in Her Majesty's Armed Forces and lay off being excepted) shall be considered as new employees, and their length of service for seniority purposes shall commence as of the date they last reentered the service of the Department. In cases of lay off, service for benefits purposes will not accrue, but will be deemed to be continuous with employment before the commencement of that leave.
- 10.4** Rights seniority within the Academy of Fire and Emergency Services, Fire Prevention Branch, and Public Education Branch relating to such aspects as promotion, will be determined by the employee's commencement date within the Branch. In the case of broken service with the Branch, the most recent commencement date will be the basis for the calculation of seniority.

Transfers between the Operations Branch and the Emergency Mechanical Services Branch

- 10.5** In the event that an employee transfers or is promoted from the Operations Branch to the Emergency Mechanical Services Branch or vice versa, seniority will apply as follows:
 - a)** Benefits Seniority (relating to such conditions of employment as vacation accrual amount of sick leave and other such employee benefits) will continue to be based upon Departmental seniority.
 - b)** Rights Seniority (relating to such aspects as promotion within the Branch, assignment of work and scheduling of vacation) will be governed by the date the employee commences work within the Branch.

ARTICLE 11 – RATES OF PAY

Rates of Pay

- 11.1** Rates of pay for the various classifications of employees covered by this Agreement shall be as set out in Appendix 1 attached hereto. Rates of pay relative to new classifications shall be subject to negotiation and agreement between the parties.

Long Service Pay

- 11.2** It is understood and agreed that the City will provide Long Service Pay entitlements to the approximately twelve (12) positions in the Emergency Mechanical Services Branch.

Temporary Assignment to Higher Rank

- 11.3** In the event that an employee is temporarily assigned, by the Chief, the duties and responsibilities of a rank carrying a higher rate of pay, then such employee shall be paid at the rate of pay of such higher rank for all time spent by him in such higher rank.
- 11.4** When a permanent appointment to a rank follows a period of temporary appointment to that rank, the employee shall be paid a salary based upon the authorized annual increments for that rank, taking into account the service accumulated during his/her temporary appointment.
- 11.5** An employee may be assigned to the position of Temporary Training Officer. At no time shall there be more than one (1) position within the Department, except under unforeseen conditions where one (1) or more Training Officers are off duty for a long term illness.

However, the foregoing does not abrogate the right of the Chief to assign any other Fire Department member on special assignment, after discussion and agreement by the Union.

Stand By Duty

- 11.6** Upon assignment, by the Chief, an employee will be granted two (2) hours of pay for each eight (8) hour period of standby duty, or portion thereof, and in the event of call out, will be paid at the rate of time and one-half (1.5x) for the first four (4) hours, and double time (2x) after the first four (4) hours plus one (1) hour of traveling time at the said overtime rate commencing from the time of call out and ending with the completion of the duty which required the call out. Employees assigned to the Resource Pool are not considered on Stand By for the purpose of this Article.

- 2(b)** Future vacancies for the position of Platoon Chief (Fire) will be filled in accordance with Article 9.44 (entitled "Promotions to Administrative Positions") of the current Collective Agreement on a "senior suitable" basis, from those individuals who hold the rank of District Chief.
- 2(e)** Future vacancies for the bargaining unit position of District Chief will be filled on a "senior qualified" basis. Without prejudice to any position taken by either of the parties with regard to any other article in the Collective Agreement, for the position of District Chief, "senior" means seniority based on start date. "Qualified" means that the individual will have taken a District Chief course, which will be based on a pass/fail grade of seventy percent (70%), and have passed the course. In the event that an individual does not pass the course, rewrites will be offered on the same basis as were agreed to previously between the parties vis a vis the proposed Acting District Chief course. There will be no suitability interview. Further, the contents of the course, when it is created, will not be finalized without input from the Union. Further individuals taking the course will receive training on days off at straight time pay

Criteria for Winnipeg Fire Department Training (WFD) (only)**ONLINE PORTION**

The pass mark for each test is eighty percent (80%). The test will be reset three times (3x) to allow the student to attain a pass mark.

This portion may be done at the Station's online computers or on a UFFW member's home computer.

There are currently eighteen (18) Modules thirteen (13) of which have tests. These Modules will be updated as necessary. Modules that will assist Officers in the performance of their duties will be added after being approved by Local 867. Modules without tests are not considered for the above criteria of "one (1) per tour."

CLASSROOM PORTION

Winnipeg Fire Department Classroom Modules will be offered to members in the particular Step of the Company Officer Development Program by seniority. Members must attend these Modules within their second opportunity, excluding annual leave, lieu tour and statutory holidays. If the member wishes to plead hardship through an inability to attend the second opportunity then he/she can make an appeal to the Deputy Chief of Professional Development. The Deputy Chief of Professional Development will reasonably accommodate the UFFW member where special circumstances arise.

ASSIGNMENTS

Assignments will include:

1. Preplan & Scope Plans

The building must be a high rise or have HAZMAT or other special hazard considerations. Prior to beginning the Preplan, if the member has any doubt as to the acceptability of the building, he should contact the Academy Instructor.

This Preplan must be done according to the methods laid out in Chapter 17 of the Company Officer text book with the understanding that the five (5) types of construction and the plan symbols do not apply in Manitoba.

A copy of the Preplan must be submitted to the Academy. The copy will be kept in the Company Officer files at the Academy.

The acceptable submission is considered a module.

2. The Lesson Plan

The Lesson Plan must be written up according to the information provided in Module Seven of the online portion of the course. All elements of the Plan must be filled in correctly and submitted to the Instructor. Any firefighting related topic would be acceptable. Any member who is unsure of the acceptability of the topic should contact the Academy Instructor. Submission of the Lesson Plan to the Academy prior to the delivery is recommended.

The Lesson Plan must be delivered to a Fire Station Crew as a regular drill session. A District Chief or higher must be in attendance and evaluate the lesson as acceptable. If an Operational Chief is not available, the member is to contact the Academy and if possible an acceptable evaluator will be assigned to monitor the lesson.

The completion of the Plan and the presentation is considered one (1) Module.

FINAL Evaluation

The Final Evaluation will consist of:

- a)** Successful completion of fire ground incident command simulations/scenarios.
- b)** Exam of Incident Command questions and other questions approved by Local 867 and will be written on the last day of the Program. A pass mark of seventy percent (70%) must be achieved. If a retest is required, it must be completed within thirty (30) days exclusive of holiday, lieu tour or stats. Additional assistance from the Academy will be available on request.

Additional retests will be on the individual's own time and at a time to be determined by the Academy Director, but in any event not longer than six (6) months. These tests will take place on the individual's own time and within six (6) month intervals.

RE: RETIREMENT SUPPLEMENT

It is understood and agreed that the City will retain Mr. Don Smith (Western Compensation & Benefits Consultants) to design a Retirement Supplement Plan to replace the existing Sick Leave Cash Out benefit. The terms of reference will include the requirement that the Plan shall be implemented effective January 1, 1999 and will incorporate the following principles.

FOR NEW FIRE FIGHTERS HIRED AFTER EFFECTIVE DATE OF CHANGE

The City will contribute one percent (1%) of salary to either Pension Plan or RRSP, payable biweekly throughout service as a Fire Fighter with the City.

FOR EXISTING FIRE FIGHTERS

Combination of:

- a)** The City will contribute one percent (1%) of salary to either Pension Plan or RRSP, payable biweekly through service as a Fire Fighter with the City.
- b)** Lump sum retirement benefit equal to the lesser of:
 - i.** Maximum tax sheltered rollover of "retiring allowance" to RRSP under the Income Tax Act (basically two thousand dollars [\$2,000] per year, or part year, of service with the City up to and including 1995);
 - ii.**
 - 1)** Projected Sick Leave Cash Out benefit (based on assumption of future Sick Leave utilization equal to average experienced by Winnipeg Fire Fighters); less
 - 2)** Estimated income tax at forty-five percent (45%) on the excess of projected Sick Leave Cash Out benefit ([a] above) over the maximum tax sheltered rollover ([i] above); less
 - 3)** Projected value at retirement of one percent (1%) pension/ RRSP contribution; and
- c)** Additional contribution to either Pension Plan or RRSP in biweekly installments over the next five (5) years equal in value to the present value of excess, if any, of (b)(ii) over (b)(i).

SICK LEAVE UTILIZATION

It is further understood and agreed that the proposed Retirement Supplement benefit valuation is calculated on the assumption that Sick Leave utilization remains constant at 1997 levels. Should the level of Sick Leave utilization in the City of Winnipeg UFFW bargaining unit average more than one hundred and fifty percent (150%) of the 1997 levels in any calendar year after 1997, the parties agree to meet, without delay, and in any event within ten (10) calendar days of learning of this result, to

assess the causes of the increased Sick Leave utilization and to make every reasonable effort to reduce Sick Leave utilization to the said 1997 levels, or lower. Such efforts may include health and safety counseling or improvements, or any other mutually acceptable effective solution.

Further, it is understood and agreed that the proposed retirement supplement applies solely to employees in those job classifications represented by the United Fire Fighters of Winnipeg, Local 867 as at December 31, 1997.

It is also understood and agreed that, should the proposed Retirement Supplement Plan prove to be inappropriate to either party, the Arbitrator remains seized of the responsibility to rule on the positions brought forth by the parties in making a determination of the continued utilization of the Plan.

RE: OPERATIONAL TRAINING COMPONENTS

The parties agree that The City of Winnipeg may create and designate Training Stations to facilitate education initiatives being delivered to operational staff.

The Service shall develop a job description for the position of Captain specific to staff the Training Stations which will outline required experience in training and appropriate educational qualifications and certifications. The job description shall further articulate the specific responsibilities of the Training Captains as it relates to the delivery of training programs which normally would have been delivered at the Training Academy.

It is clearly understood that the Training Captains will be required to deliver formalized training programs, complete assessments, provide mentoring, providing feedback and preparing summative and formative evaluations and reports.

The Service shall provide the training and educational programs stipulated in the job descriptions to interested personnel at the Captain Rank in order of seniority. Upon securing the required qualifications, qualified personnel shall be eligible to apply for bulletined Training Captain positions and selection shall be based on seniority.

The Service shall effect station assignments to ensure that the Training Stations are staffed appropriately.

It is understood that when there are no Captains in Suppression who have the qualifications of Training Division experience to be assigned to these Training Stations a regular promoted Captain will be assigned to this Station. The Captain would then receive the regular rate of pay of a Suppression Captain.

These provisions shall not in any way supersede the promotional process as outlined in the Collective Agreement.

A qualified Training Captain assigned to a Training Station and charged with the responsibilities of an Operations Training Captain shall be paid one hundred and thirty percent (130%) of a First Class Fire Fighter.

The United Fire Fighters of Winnipeg, Local 867 of IAFF**

RE: OVERTIME CALL-IN

The parties agree to merge the Fire Fighters and Fire Fighters/PCP's lists referenced in Article 14-13 into one list, sorted by seniority, for the purposes of creating one rotational list for overtime call-in (excluding Officers). The Officer's list will remain a stand-alone list.

The City maintains the right as per Article 14-13:

When the City determines that it is necessary to call-in Fire Fighters on overtime, call-in will be determined: first by skill level in the categories noted below based on the operational need of the City; then by seniority rotation.

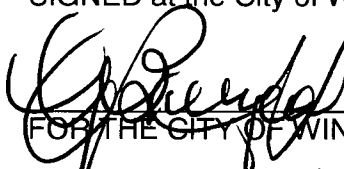

1. Fire Fighters
2. Fire Fighters/PCP's
3. Officers.

Therefore, where the City determines that it is necessary to call in a Fire Fighter/PCP, the City may go out of seniority rotation of the merged list to call-in the next senior Fire Fighter/PCP available.

In accordance with Article 14-13, the parties will continue to review and evaluate the impact of changes, and the fairness of the process, in overtime call-in over the term of the Collective Agreement.

With thirty (30) days of notice to the Union, the City may terminate this Letter of Understanding and overtime call-in will be administered in accordance with the provisions of Article 14-13.

MEMORANDUM OF AGREEMENT

**Between the City of Winnipeg Fire Paramedic Service (WFPS) and
The United Fire Fighters of Winnipeg, Local 867 of IAFF (UFFW)**

RE: PLATOON SAFETY OFFICER

Whereas during the negotiations for the renewal of the Collective Agreement between the above noted parties which expired December 26, 2007, the parties agreed to establish a pilot project with a view to creating a permanent Platoon Safety Officer position within the On Duty Suppression Component; and

Whereas the above noted parties agree that to better meet the developmental needs of our Fire Officers and the organization, the Platoon Safety Officer Pilot should be transitioned into a standard program that is sustainable and meets the Office of the Fire Commissioner recommendations and improvement orders issued by Workplace Safety and Health following the Gabrielle Roy fire; and

Whereas following the duration of the Platoon Safety Officer Pilot a comprehensive analysis was done and constitutes the benchmarks, rationalizations and framework for this Agreement. During this analysis it was abundantly clear that the Pilot Platoon Safety Officer course had a significant overlap in the training required for a District Chief Officer particularly in regards to the incident command, reading smoke and risk assessment models.

Therefore, the above noted parties agree as follows:

Program:

1. That the Platoon Safety Officer position shall be the part of the educational development process for a District Chief in the future.
2. To gain the required commander acumen, the future educational path creates a logical progression to help prepare Captains to evolve from front line supervisors to District Chiefs/Incident Commanders by providing them with the necessary training and tools as Incident Safety Officers with multiple emergency incidents.
3. To achieve this model, the training for Safety Officers shall now be incorporated into and considered as the first phase (Part 1) of the District Chief Training Course as depicted below.
4. Progression to Part 2 of the District Chief Course will be contingent on a Captain having successfully concluded Part 1.

Existing and Future Platoon Safety Officer's:

1. The Captains who were participants in the Platoon Safety Officer Pilot shall be allowed to continue in the position of the PLATOON SAFETY OFFICER Irrespective of the following methodology for future selection as they have already been trained. Pilot Project participants will be maintained as a qualified Platoon Safety Officer and will only need to do the GAP training needed for the District Chief course being taught at the Academy.
2. Selection shall be based on seniority in Fire Suppression. The training shall commence with the employee Regimental Number 1080 and shall continue to be offered to employees on a

seniority basis, with numbers to be trained each year dependent on the Service's needs. Employees with lower regimental numbers (greater seniority) shall be considered as being grandfathered from the new training model for District Chiefs and carry on with the current training course.

Conditions:

1. It was agreed at the time that Pilot Project was negotiated that the rate of pay for the length of the Pilot would be one hundred and thirty percent (130%) of a First Class Fire Fighter. However, based on the new model which makes the Platoon Safety Officer position part of the educational path towards a District Chief the wage shall be increased to one hundred and thirty-five percent (135%) placing this position between a Training Captain and the rate of a District Chief. This rate of pay shall continue until a job description for the Platoon Safety Officer is developed by the Service and rated for salary by the City of Winnipeg Corporate Compensation and Classification Branch. Said rating shall determine the salary for the Platoon Safety Officer positions. If there is an increase in the percentage differential it shall become effective from the date the report is received by the Service from the Compensation and Classification Branch.
2. The hours of work will be the same as the hours of work for the Fire Suppression Platoon Shift Schedule.
3. Candidates who are being prepared for a District Chief roll subsequent to the Pilot course will be trained and maintained as Actors until such time as the Pilot participants have either retired or moved on to be a District Chief at which time the most senior Actor will be given an opportunity to take on the Platoon Safety Officer role and functions. (An Actor is an employee who has completed the required training, is able to function as a Platoon Safety Officer, however, is not in a designated Platoon Safety Officer position but is able to act in the role to replace a Platoon Safety Officer who is off work. The senior Actor is the most senior employee of those deemed qualified to act).
4. Candidates will need to successfully complete the accredited ISO course, the relevant Health Safety Officer training and first phase of the District Chief course similar to the material taught to the Pilot participants.

Line of Control:

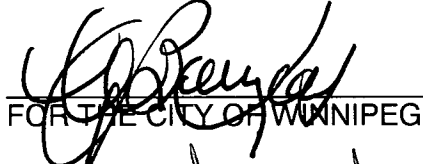

1. The Platoon Safety Officer Program will be based in Operations and each Platoon Safety Officer will have a direct report to the Platoon Chief for all day to day staffing and operational issues. In addition, the Platoon Safety Officer will maintain a reporting relationship to the Safety Branch (currently Safety Officer) for all Health Safety Officer and Safety related training issues.

Acting and Overtime:

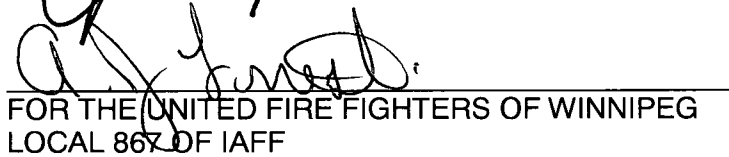

1. Due to the educational path proposed it is expected that there will be at least two (2) Actors per Platoon to fill this position if needed.
2. However, it is recognized that this will take approximately one (1) year to train enough staff to achieve this threshold and therefore it may be necessary to call in a Platoon Safety Officer or an Actor from another Platoon to fill this void in such an event that no other staff is qualified to fulfill this need.

The provisions of the Memorandum shall become effective the start of the first full period following the date of signing. (Signed January 15, 2010 or March 2, 2010)
