

Demolition/Removal Building Permit Application Form*

*used for all residential and commercial buildings

Date: _____

To obtain a demolition permit for a structure that contains one or more dwelling units (e.g. single/two family dwellings, etc.), a new construction building permit application must be submitted to the City per requirements in the Development Procedures By-law 104/2020. If you have an approved demolition variance, or an order to demolish a residential structure due to unsafe conditions, a new construction building permit application is not required.

Location of demolition

Street number:	Street name:	Unit number:
Legal description	Lot:	Block:
	Plan:	

Contact information (Provide as much contact information as possible.)

A licensed demolition contractor is required to demolish a building/structure or a part of a building/structure. A demolition contractor licence is not required to demolish residential accessory structures, including decks, detached garages, carports, storage sheds, gazebos, workshops, etc.

Dwelling unit information N/A

Number of dwelling units lost due to proposed demolition/removal:

Description of work – describe the proposed demolition/removal work in detail (e.g. full demolition, depth of foundation removal below adjacent grade, main floor slab, piles, etc.)

<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>

Required documentation – one copy, fully dimensioned

<input type="checkbox"/> Letter of Authorization (Commercial) or Owner Statement (Housing - not required if owner is the applicant)
<input type="checkbox"/> Status of Title (dated within three months of the application date, along with any City of Winnipeg interests (e.g. caveats))
<input type="checkbox"/> Site plan or Building Location Certificate <ul style="list-style-type: none">• all buildings on the property (the building(s) to be demolished/removed must be clearly identified)• distance from buildings to all property lines• indicate what is adjacent to all property lines (other properties, streets, lanes, etc.)• if the demolition is adjacent to a street, provide details on all items from the property line to the street curb (e.g. sidewalks, boulevards, trees, utilities, etc.)• legal description

May be required documentation – one copy, fully dimensioned

<input type="checkbox"/> Engineer's Report certifying that the structure is unsafe (required if you do not have an order to demolish and would like to proceed with the demolition without a new construction building permit) For all other applications, an Engineer's Report for excavation to protect neighbouring properties and structures may be requested by Plan Examination once your application is reviewed.

Additional requirements for demolitions

<p>Water and Taxes</p> <p>It is the applicant's responsibility to ensure that City water is turned off and/or disconnected and City property taxes are paid in full for any demolished buildings. To verify that the water service is turned off and/or disconnected, please call Water & Waste at 204-986-2455 or email utilitybill@winnipeg.ca. To verify that taxes are paid, please contact Assessment & Taxation at 311 prior to any building demolition.</p> <p>Asbestos</p> <p>Asbestos presents a potential lung disease hazard when released into the air. It is present in thousands of common building materials used prior to the early 1990's, and is still used today in some applications. Pursuant to Manitoba's Workplace Safety and Health (WSH) Act and WSH Regulations (Part 33 & 37), prior to demolition or alteration activities, owners, contractors or employers must ensure that:</p> <ul style="list-style-type: none">• an asbestos inventory is prepared by a person competent to determine the presence of any asbestos containing material (ACMs)• asbestos is removed from the area being demolished or altered• adequate measures are taken to ensure that ACMs do not create a risk to the safety and health of any person• the Director of WSH is notified 5 days in advance of work that may release ACMs into the atmosphere <p>www.gov.mb.ca/labour/safety/asbestos.html www.safemanitoba.com or call 204-957-SAFE</p> <p>Failure to comply with these requirements may result in work stoppages, fines or prosecution.</p>
