

## INFORMATION - COMMUNIQUÉ

---

For Immediate Release  
Wednesday, June 21, 2017

### **Residents invited to public information session on Plessis Road and Kildare Avenue intersection upgrade and the twinning of Transcona Boulevard**

**Winnipeg, MB** – The City of Winnipeg is working to improve safety and flow of traffic at the Plessis Road and Transcona Boulevard/Kildare Avenue West intersection. Winnipeggers are invited to attend an information session to learn about planned construction.

EdgeCorp Group, developers of the Park City Commons, is working in a joint venture with the City on the construction on two additional lanes on the north side of Transcona Boulevard. Once complete, the four-lane divided roadway will extend approximately 750 metres west of Plessis Road, and 140 metres onto Kildare Avenue West.

The improvements made to the intersection at Plessis Road and Transcona Boulevard/Kildare Avenue West are aimed at improving safety and flow of traffic at the intersection. Upgrades will include dedicated turning lanes with medians. The twinning of Transcona Boulevard will also see the addition of sewer and water services for future developments.

Construction is expected to start in mid-July and run to the end of October 2017.
