

# Dublin Avenue Bridge Replacement and Regional Street Improvements

The Dublin Avenue Bridge over Omand's Creek is in poor condition and needs to be replaced. Bridge replacement will be coordinated with improvements to nearby roadways, including the reconstruction of Dublin Avenue from St. James Street to Midland Street and the rehabilitation of St. James Street from Saskatchewan Avenue to Notre Dame Avenue. **See reverse for project area map and construction timing.**

---

Access to all business will be maintained throughout the project. However, do you foresee any issues that could be solved by adjusting construction timing?

Review the project boards and fill out a comment form at [winnipeg.ca/dublin](http://winnipeg.ca/dublin).

For inquiries, please call **204-488-5742**
