

# Pembina Highway Overpass at Abinojii Mikanah Rehabilitation and Related Works

## Project Outcomes

### What are the benefits of doing this work?

- ✓ The service life of the bridge structure is extended
- ✓ The new design increases safety
- ✓ The eastbound exit ramp from Abinojii Mikanah is better connected to University Crescent
- ✓ Traffic flow, active transportation, and transit connections are improved

## Project Timeline

## Questions?

For any inquiries about the project, please contact Sanjana Mada from Scatliff + Miller + Murray.
