

Public Works Insect Control

PUBLIC NOTICE INSECTICIDE USE

Public notice is hereby given that the Insect Control Branch of the City of Winnipeg's Public Works Department intends to control for structural pests, as necessary, in various public properties using the insecticides permethrin, pyrethrin, and hydramethylnon.

The projected dates of application are January 1, 2018 to December 31, 2018. All pesticides used and procedures applied will be in accordance with federally approved label recommendations from the Pest Management Regulatory Agency, Health Canada and the recommendations set by Manitoba Sustainable Development.

Any person may, within 15 days after this notice is published, send a written submission regarding the control program or register with the department their written objection to the use of pesticide next to their property to Manitoba Sustainable Development, Pesticide and Hazardous Waste Section, Suite 160, 123 Main Street, Winnipeg, Manitoba, R3C 1A5.
