

## **Adult nuisance mosquito control program continues tonight**

Yesterday evening, we completed treatment in Insect Management Areas 13, 27, and 28. We will continue spraying at 9:30 p.m., weather permitting, in the following insect management areas:

- IMA 1 (Kilcona Park, River East, Springfield North, Valhalla)
- IMA 2 (Kildonan Drive, Rossmere A)
- IMA 11 (Glenwood, Norwood East, Norwood West)
- IMA 14 (Kingston Crescent, Minnetonka, Norberry, Pulberry, Victoria Crescent)
- IMA 18 (Maple Grove Park, Normand Park, River Park South, St. Vital Centre, Vista)
- IMA 23 (Tuxedo Industrial, West Perimeter South, Whyte Ridge, Wilkes South)
- IMA 26 (Betsworth, Ridgewood South, River West Park, Roblin Park, Southboine, Westdale)
- IMA 29 (Edgeland, Old Tuxedo, South Tuxedo, Tuxedo)
- IMA 34 (Assiniboia Downs, Buchanan, Kirkfield, Glendale, Westwood)
- IMA 35 (Crestview, Heritage Park, Saskatchewan North, Sturgeon Creek)
- IMA 36 (Birchwood, Booth, Jameswood, Murray Industrial Park, Silver Heights, Woodhaven)
- IMA 38 (Bruce Park, Deer Lodge, King Edward)
- IMA 50 (Jefferson, Kildonan Park, Seven Oaks)

Adult mosquito control occurs between 9:30 p.m. and 6:30 a.m. and will not happen with heavy winds or when temperatures are below 13 C.

The insecticide DeltaGard® 20EW will be used in accordance with federally approved label directions and will be applied by licensed applicators. This insecticide has been approved for use in Canada by Health Canada's Pest Management Regulatory Agency.

### **Buffer zones**

Buffer zones make it so we can't apply DeltaGard within 90 metres of a specific property.

You are able to apply for a buffer zone adjacent to your principal residence. Applications must include a letter and photo ID linking you to the address in question. They can be submitted:

- Via an [online service request](#)
- By emailing [311@winnipeg.ca](mailto:311@winnipeg.ca)
- By fax to 311
- In writing to the Insect Control Branch at 3 Grey Street, Winnipeg MB R2L 1V2
- In-person at [1539 Waverley St.](#)

We require a minimum 72-hour turnaround time.

### **Do your part**

We also encourage you to stop skeeters from multiplying on private properties. You can eliminate standing water by following our #draindumpcover protocol:

- Drain water from eavestroughing or unused containers
- Dump standing water from containers like wheelbarrows, bird baths, and kiddie pools when they aren't in use
- Cover rainwater collection containers and undrainables like larger pools and water tables

You can also fill low-lying areas where water pools and treat your properties with commercially available pesticides.

### **Register for notification**

We provide an automated daily telephone and email notification system for insect control activities. [Register online](#) or by [contacting 311](#).
