

# THE CITY OF WINNIPEG IS PLANNING TWO PEDESTRIAN AND CYCLING PROJECTS IN YOUR COMMUNITY

New pedestrian and cycling infrastructure connecting the Bishop Grandin Greenway to St. Boniface.

Identifying a preferred location for a new pedestrian and cycling crossing over the Seine River.

## YOUR INPUT IS NEEDED

- » This is the start of the public engagement process for the project. Visit [www.winnipeg.ca/walkbikeprojects](http://www.winnipeg.ca/walkbikeprojects) to learn more about the project and to provide your input through an online survey and mapping tool.

## Project Background

**Southeast Corridor - Connecting the Bishop Grandin Greenway to St. Boniface:** The goal of the Southeast Corridor Study and Design, along the area around Des Meurons Street and St. George Road, is to provide pedestrian and cycling infrastructure that allows people of all ages and abilities to walk or bike from the Bishop Grandin Greenway to the St. Boniface neighbourhood. The infrastructure will start and end at safe locations and connect people from their neighbourhoods to existing and future bicycle infrastructure.

**Seine River Crossing - Identifying a New Pedestrian and Cycling Bridge Location:** The goal of this study is to identify a preferred location for a new Seine River pedestrian and cycling crossing. An identified site would support the community's vision for a Seine River Pathway network and will increase connectivity in the cycling and pedestrian network.

For inquiries or for those who require alternate formats or interpretation to participate, please contact David Jopling.
