- Reducing the impact on the environment
- Research partnerships & resource development

# Brady CLC

## 2019 storm response

- Brady and Summit landfill are receiving all the wood waste dropped off from the October 11/12 storm
- Extended hours at the 4R Winnipeg Depots and opened the Summit Road landfill site to residents and contractors for wood waste
- The 4R Winnipeg Depots received, on average, 1,000 residential customers daily
- All the wood is being chipped and being used in our leaf and yard waste composting, biosolids composting and soil fabrication operations

# Brady CLC

**Thank you**
