

Winnipeg residents are invited to

Speak Up on Garbage

We are developing a plan to present to City Council in fall 2011 outlining the future of garbage and recycling services in our city. It is important that we include your comments and recommendations.

We invite you to drop by to share your thoughts on:

- ▶ ways to improve garbage, recycling and composting services, and
- ▶ the future of Brady Road Landfill.

For more information, visit our website at garbage.speakupwinnipeg.com or phone 311.
