

Water and Waste Department

Winnipeg residents are invited to

Recycling Open Houses

We are exploring two new collection options in addition to our current blue box program:

- weekly automated collection using 240 litre carts (which holds the contents of 3 to 4 blue boxes)
- bi-weekly automated collection using 240 or 360 litre carts (which holds the contents of 5 to 6 blue boxes)

We want to hear your views on our current blue box recycling program and the options.

You can see the carts and staff will be available to answer your questions.

Date	Location	Time
Tuesday, Nov. 17	Red River College , 160 Princess	3 - 8 pm
