Dear Colin Javra

**Re: North End Water Pollution Control Centre – Environment Act Licence
No. 2684 RRR - Upgrade Projects - Quarterly Progress Report Response**

Thank you for the April 29, 2022, quarterly progress report regarding the upgrade projects at the North End Water Pollution Control Centre (NEWPCC) during the months of January, February, and March 2022.

Upon review, I note the report does not indicate the City of Winnipeg's intention to complete the upgrade works by 2030. The December 23, 2021, and April 14, 2022, letters to the city's Chief Administrative Officer directed the city to submit a plan to complete the upgrade works by 2030. The city must plan to complete the upgrade works by 2030 and reflect that completion date in the quarterly progress reports going forward.

Table 1 includes a decommissioning task. However, the report does not indicate what the city intends to decommission. The relevance to the quarterly report of the "Earned Value" graph in Table 2 is not clear. Therefore, please provide an addendum to the April 29, 2022, quarterly progress report. In the addendum, include a description of the component(s) of the headworks to decommission and an explanation of Table 2.

The city must continue to submit quarterly progress reports with details including correct information such as start date, targeted completion date, and current status for each activity and milestone.

Should you have any questions regarding this letter, please contact Bereket Assefa, Senior Environmental Engineer, Environmental Approvals Branch at Bereket.Assefa@gov.mb.ca or 204-330-4613.

Sincerely,

James Capotosto
