Attached please find the February 2005 Monitoring Report for Licence No. 2669 issued for the City of Winnipeg West End Water Pollution Control Centre (WEWPCC). Please note the following:

1. You will note that a few data points have been missed because of field or lab error. We apologize for these errors.
2. The mode of lagoon operation was changed on February 16. This was done to determine if the effluent bacti results would be affected and to assist with the temporary flow monitoring being done.
