Notice to Residents

Upcoming Construction in Calrossie Toilers Park

Starting as early as December 16, 2013, we will begin a five-month construction project in Calrossie Toiler Park, along the Red River, east of Riverside Drive, between Byng Place and Calrossie Blvd.

The work will be entirely contained on public property, and will include:

- stabilizing the riverbank, and
- installing a new concrete gate chamber and outfall to the river's edge that will allow land drainage from the neighbouring area to drain into the Red River.

During construction:

- your water and sewer service will not be interrupted,
- your recycling and garbage collection will not be affected, and
- you will have access to your property all times.

The green space restoration will:

- be completed in the spring, and
- consist of landscaping around the new gate chamber and outfall and restoring any green spaces that we disturbed during construction.

We will be holding an open house early next year to share more details on our construction project and our plans for restoring the green space. We will update you as soon as we confirm a date and location.

To keep your children safe, please keep them away from the construction site at all times.

Tri-Core Projects Ltd is the contractor for this work. Funds from the City's budget will pay for this project.

More information on our basement flood relief projects is on our website at:
winnipeg.ca/waterandwaste/sewage/projects/overflowrelief/default.stm

If you have any questions regarding this project, please contact our consultant, Mr. Ray Offman, Contract Administrator with KGS Group, by email at roffman@ksgsgroup.com or by phone at 204-896-1209 during regular business hours. The after-hours number for emergencies is 311.

We understand that this project may temporarily cause you some inconvenience. We appreciate your patience.
